

DTCC

DTCC REPORT HUB®

YOUR NEXT GENERATION TRADE REPORTING SOLUTION

Experience the power of a resilient, scalable, and intuitive reporting tool with a sleek new user interface

DTCC Report Hub's modernized and intuitive user interface (UI) is more dynamic and easier to use than ever. We've upgraded the user experience to empower our clients with improved ease of use and enhanced functionality.

Recognizing the premium placed on control, the new UI features a dynamic dashboard summary that provides a consolidated view of exceptions in need of remediation, easily showing systemic and thematic reporting issues identified.

And by reducing touchpoints, we've made it easier for you to access the data you need. [Schedule your demo today!](#)

WHAT'S NEW ABOUT THE USER INTERFACE?

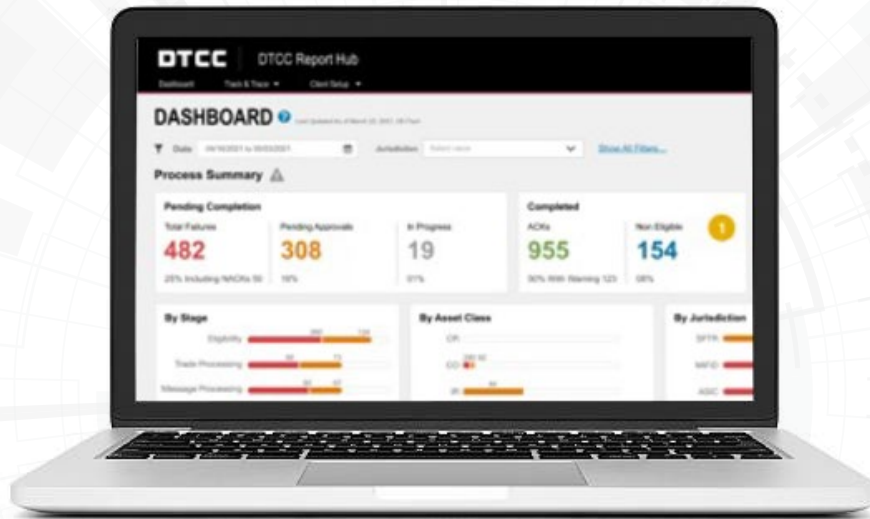

- Dashboard summary screen with drill-through capability
- Improved audit history and data lineage
- Transparency into reporting jurisdiction eligibility at both a summary and transaction level
- Savable filters put the data you care about at your fingertips
- Customizable business rules and rules inventory to let you take control of your data

DTCC REPORT HUB

Your Next Generation Trade Reporting Solution.

We built DTCC Report Hub to put the power of a robust reporting solution in your hands. Simplify your entire reporting process by bolstering your overall pre and post reporting assurance workflows. The service's unparalleled functionality and intuitive user interface enables you to: manage the complexities of reporting across 14 jurisdictions covering global derivatives regulation, SFTR and MiFID II; alleviate the burden of updating your reporting processes to stay current with changing mandates; and unleash the power of resilient, cutting-edge technology to help you master your pre and post reporting assurance tasks.

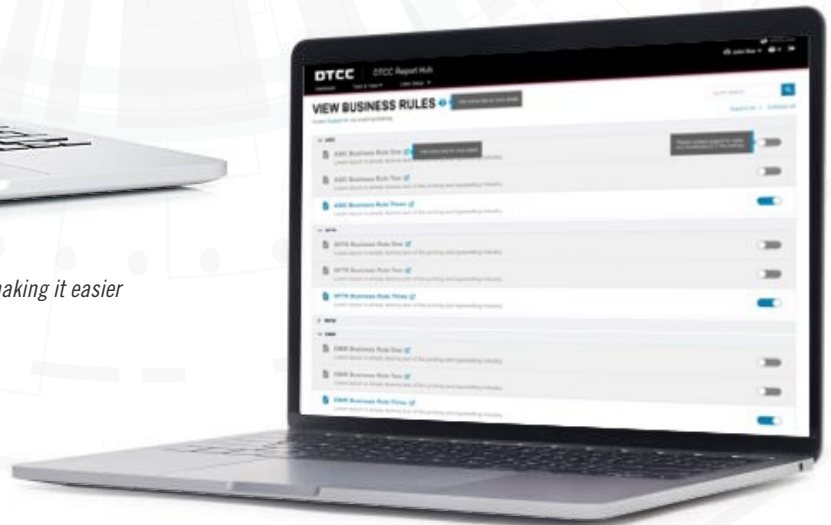

Manage your holistic global derivatives and SFTR reporting needs when you use both Report Hub and our Global Trade Repository (GTR) services.

Experience the power of a resilient, scalable, and intuitive reporting solution with a sleek new user interface

Data filters allow you to set and save your preferences, making it easier to access the data you need.

Customizable business rules provide additional eligibility checks, validations, and workflows.
