<b>Subject:</b>	Underwriting Central – Upgrade to User Interface

**The Underwriting Central user interface (UWC UI) was updated in the UWC client test region 10/08/2023.** The upgrade includes changes to UWC application components, the look and feel of the user interface, and some field level functionality. The upgrade aligns the UWC application with current DTCC User Interface standards.

No new functionality has been added to the application as part of the upgrade and the UWC Spreadsheet Upload Template will remain the same.

**Underwriting PM strongly suggest users test the UWC application prior to the Production deployment date, currently scheduled for the end of November 2023.**
