

# **IMPORTANT NOTICE**

**DTCC Deriv/SERV LLC**

#: 660  
Date: May 29, 2008  
To: Distribution  
From: Web Administration  
Subject: New Participant Web Pages

On May 30<sup>th</sup> 2008, the Deriv/SERV website currently accessible through (<http://derivserv.dtcc.com>) will be fully-integrated with the DTCC corporate site ([www.dtcc.com](http://www.dtcc.com)). The Participant Section can be found under the Product & Services menu tab for OTC Derivatives ([www.dtcc.com/products/derivserv/](http://www.dtcc.com/products/derivserv/)). Users will continue to use their existing User Name and Password to access the new Participants' Section. Once you have logged on to the site remember to update your favorites/bookmarks for future reference.

Participants are encouraged to visit the new site and become familiar with new locations of DTCC Deriv/SERV information. The consistent "look and feel" offers flexibility across the DTCC and Deriv/SERV Product, Service and Support Information pages. The site features a text Search toolbar to find the information you need, and sorting capability by most relevant or by published date.

Consistent with the old format, the Participants' Section includes the familiar Products and Services matrix with direct access to newly designed participant pages. Each page features "Pages In This Collection" for easy navigation across Deriv/SERV products and services, "Related Information" access to reference Training and Working Group resources and subject links that quickly display lists of participant documentation, technical support and release information.

For further assistance please contact your Deriv/SERV representative.
