<b>Subject:</b>	Delay in deployment date of CBRS code

DTCC is planning to make changes to the CBRS input record layouts, and the system's WebDirect data input and output screens.

**The changes were initially scheduled for deployment to the production environment on November 29, 2012. This implementation date has been delayed.**

Also, the participant testing environment—PSE or the Participant Services Environment—is currently unavailable.

DTCC will publish another Important Notice when the code deployment date has been rescheduled and the participant testing environment is available for testing the new code.
