SCOR has announced a cash dividend. BNY Mellon acts as Depositary for the company's American Depositary Receipt ("ADR") program.

Participants can use DTC's Elective Dividend System (EDS) function over the Participant Terminal System (PTS) or Tax Relief option on the Participant Browser System (PBS) web site to certify all or a portion of their position entitled to the applicable withholding tax rate. Use of EDS will permit entitlement amounts to be paid through DTC.

EXHIBIT I - Rules to be applied when creating an ADR file

1. Please note that the previous Appendices B.2 – B.8 Physical Beneficiary List formats have been eliminated. Going forward all beneficiary details should be submitted via ASCII (plain text), or Excel files regardless of the number of beneficiaries on your lists. If your company does not allow you to transmit electronic files and you have fewer than 50 beneficiaries you may input your data in the ADR file format, print that file out and include it with the rest of your documents. If you have more than 50 beneficiaries an ASCII or Excel file is required.
2. Files may be either ASCII (plain text), or Excel files indistinctly. The choice is completely at the discretion of the user. However, the Excel format is likely to be easier for the user to create and manipulate.
3. The order of fields (columns) must be strictly respected in both ASCII and Excel files, as specified in the document describing the structure (ADR_File_Example).
4. All the fields (columns) must have data in every line. All data is mandatory and cannot be omitted.
5. Numeric values in both ASCII and Excel files should not contain any commas, semicolons, or blanks.
6. The DUE DATE field must have the form DDMMYYYY (e.g. 03052013 for May 3, 2013). It is considered to be a text value, and not an integer number. Consequently, a number or date format in the Excel file should not be applied to this column.
7. In ASCII (plain text) format, if the value of a field is shorter than the maximum length specified for it, the value must be padded with blanks at its right, to obtain the maximum length specified. For example, if the value of ADD1 is “800, Abbey Road” (15 characters), it should be padded with 50 blanks the end: “800, Abbey Road ”, in order to obtain the specified length of 65 characters. This rule does not apply to Excel files. Never use the tab key to obtain blanks!
8. In Excel format, only the maximum length of the fields should be respected. Thus, the value of ADR1 “800, Abbey Road” (15 characters) is valid; “1964, Tutankhamun Lane, Home of the Rising Sun, Apartment 10B, Floor 15” is not, as its length (71 characters) is greater than 65 – the maximum length allowed for this field.
9. In Excel format, the use of the semicolon (;) is prohibited.

The rules above should be scrupulously respected, in order to assure rapid and efficient integration of the provided files.
