

ASSET SERVICES

QUICK AND CUSTOM SEARCH

The Event Search gives you three ways to search for distribution, redemption, and reorganization announcements.

There are three ways to search. There's the **Quick Search**, the **Custom Search**, and the **Advanced Search**. Let's look at the Quick and Custom Searches, which work in much the same way.

The **Quick Search** is the fastest way to find any announcement if you know the CA ID. Simply type the CA ID in the left field and click the magnifying glass.

This opens a single Record Detail page.

The Quick Search fields are available throughout CA Web. Use Quick Search for both current and archived records.

You can also use **Quick Search** to look up CUSIPs, including disbursed, contra-defeased, and refunded CUSIPs.

Select a CUSIP type and click the magnifying glass. Results that match your search criteria appear on a Search Results page.

Now let's look at the **Custom Search** tab on the Event Search page. Like the Quick Search, any searches performed here check both the production and archived records databases.
