INTRODUCTION

WHAT IS INSURANCE PROFILE?

DTCC Insurance Profile is a repository of expense, fee, and commission schedule data provided by carriers for annuities distributors to access from a centralized location.

DTCC Insurance & Retirement Services created Insurance Profile to help the annuities marketplace move toward fiduciary best-interest standards that demand greater data transparency for investors. The service is uniquely designed to facilitate the collection and dissemination of fiduciary-related data including fee, expense and commission schedule data related to annuity investments.

Insurance Profile streamlines the process for submitting and accessing data for both carriers and distributors.

HOW DOES INSURANCE PROFILE WORK?

Insurance Profile allows Carriers to submit and maintain their standardized expense, fee and commission schedule data. The data is validated and stored in the Insurance Profile repository. From this repository, distributors can access standardized data from multiple carriers through a single platform, making support and maintenance of proprietary feeds or databases unnecessary.

WHAT WILL YOU LEARN?

This guide is intended to show distributors how to use the Insurance Profile Web interface. As a distributor, you will be able to:

- Access Product CUSIP level standard commission data
- Export commission schedule data in a spreadsheet
- Access Product CUSIP level standard fee and expense data, and
- Export a fee and expense summary report.
ACCESSING INSURANCE PROFILE

You can gain access to Insurance Profile via the DTCC Web Portal at https://portal.dtcc.com.

1. Type your login information in the User ID and Password fields.
2. Click Login to access the DTCC Web Portal.
