#### 1. BUSINESS AND OWNERSHIP

National Securities Clearing Corporation (NSCC or the Company) is organized as a business corporation under New York law, and is a clearing agency registered with the U.S. Securities and Exchange Commission (SEC). NSCC provides clearing, settlement, risk management, and central counterparty (CCP) services to its members (collectively referred to as Participants) for broker-to-broker trades involving equities, corporate and municipal debt, exchange-traded funds, and unit investment trusts.

NSCC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). Other subsidiaries of DTCC include The Depository Trust Company (DTC), Fixed Income Clearing Corporation (FICC), DTCC ITP LLC (formerly known as Omgeo LLC), DTCC Deriv/SERV LLC, Business Entity Data, B.V. and DTCC Solutions LLC.

NSCC is designated as a Systemically Important Financial Market Utility (SIFMU) by the U.S. Financial Stability Oversight Council pursuant to Title VIII of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, which subjects the Company to the SEC's standards for covered clearing agencies.

#### 2. BASIS OF PRESENTATION AND USE OF ESTIMATES

**Basis of presentation.** The accompanying Condensed Financial Statements are prepared in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP). The accompanying interim financial statements have not been audited. These interim financial statements do not include all of the information and notes required by U.S. GAAP for complete financial statements and should be read in conjunction with NSCC's Audited Financial Statements for the years ended December 31, 2017 and 2016, which are located on the Company's website at <a href="http://www.dtcc.com/legal/financial-statements">http://www.dtcc.com/legal/financial-statements</a>. See Note 2 in NSCC's Audited Financial Statements for the years ended December 31, 2017 and 2016, for additional information on the Company's Summary of Significant Accounting Policies.

The Condensed Financial Statements reflect all adjustments of a normal recurring nature that are, in the opinion of management, necessary for the fair presentation of the results for the interim period. The results of operations for interim periods are not necessarily indicative of results for the entire year.

The Company reclassified prior period amounts related to Refunds to Participants and certain components of net periodic pension cost allocated to conform to the current year presentation. See below and Note 3 for additional information.

**Use of estimates.** The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the Condensed Financial Statements. Management makes estimates regarding, among other things, the collectability of receivables, the outcome of litigation, the realization of deferred taxes, unrecognized tax benefits, fair value measurements and other matters that affect the reported amounts. Estimates are based on judgment and available information; therefore, actual results could differ materially from those estimates.

**Revenue recognition.** On January 1, 2018, the Company adopted the new revenue recognition standard under the full retrospective method of adoption. See Note 3 for additional information.

The Company recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that principle, the Company applies the following steps: identify the contract(s) with the customer, identify the performance obligations in the contract(s), determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when (or as) the entity satisfies a performance obligation.

The Company enters into contracts that can include various services, in which each service, an explicit promise, is generally distinct and accounted for as separate performance obligations. Certain promised services are substantially the same and have the same pattern of transfer to the customer and therefore are considered as a series of services.

The Company recognizes revenue from contracts with customers as performance obligations are satisfied when promised services are transferred to the customer. The majority of the promised services and related performance obligations are recognized at the point in time when the control of the promised service is transferred to the customer. The amount of revenue recognized reflects the consideration the Company expects to be entitled to for transferring the promised services to the customer. For certain contracts with customers, the consideration in which the Company expects to be entitled to in exchange for transferring promised service to a customer consists of variable consideration. The variable consideration primarily relates to volume based discounts for certain services, however, the volume targets or thresholds typically reset on a monthly basis therefore, the variable consideration does not have an impact on the Company's Condensed Financial Statements.

The Company derives its revenue from transaction fees and other services. Revenue from transaction fees is recognized at a point in time on the transaction date, as the customer obtains the control and benefit of the service at that point. Other services, which represents fees generated from offering referential based data and business processing solutions to financial institutions globally, is recognized when services are provided based on contractual terms. The Company typically bills its customers 30 days in arrears.

#### **Revenue** streams

Details for each revenue stream presented in the Company's Condensed Statements of Income follow:

*Clearing services.* The Company delivers clearing services across the U.S. equities markets. Clearing services include continuous net settlement and mortgage backed securities clearing.

*Wealth management services*. Drives centralized, automated processing and information services. Provides seamless, end-to-end communications with broker/dealers and other distribution partners are enabled for funds, asset managers and insurance companies and their service providers. Wealth management services include mutual fund, alternative investment, and insurance and retirement services.

*Other services.* DTCC Data Services offers referential and activity-based data, delivered in fixed or configurable formats, sourced from the Company's transaction, reference and position. Other services include data on market and benchmark analytics and security reference.

#### Accounts receivable and deferred revenue

The period in which the Company recognizes revenue may differ from the timing of payments received from customers. The Company records a receivable when revenue is recognized prior to payment and there is an unconditional right to payment. See Accounts receivable on the Condensed Statements of Financial Condition for the Company's receivables related to revenues from contracts with customers. Alternatively, when payment precedes the provision of the related services, the Company records deferred revenue until the performance obligations are satisfied. Deferred revenue represents the Company's contract liabilities related to billings or payments received in advance for other services, where the performance obligation has not yet been satisfied.

#### Impacts to previously reported results

Details of the revenue recognition impact to the Company's previously reported results for the three and six months ended June 30, 2017 follow (in thousands):

#### 3. ACCOUNTING AND REPORTING DEVELOPMENTS

See Note 3 in NSCC's Audited Financial Statements for the years ended December 31, 2017 and 2016, for additional information on the Company's Accounting and Reporting Developments.

Standard	Description	Impact on the financial statements or other significant matters
Recently Adopted Accountin	ng Standards	
Revenue Recognition - Revenue from Contracts with Customers <i>Issued May 2014</i>	<ul> <li>Requires revenue from contracts with customers to be recognized upon transfer of control of a good or service in the amount of consideration expected to be received.</li> <li>Changes the accounting for certain contract costs, including whether they may be offset against revenue in the accompanying Condensed Statements of Income, and requires additional disclosures about revenue and contract costs.</li> <li>May be adopted using a full retrospective approach or a modified, cumulative effect approach wherein the guidance is applied only to existing contracts as of the day of initial application, and to new contracts transacted after that date.</li> </ul>	<ul> <li>Adopted January 1, 2018.</li> <li>The Company adopted the revenue recognition standard under the full retrospective transition method of adoption.</li> <li>The Company's implementation efforts included the identification of revenue within the scope of the standard and the evaluation of revenue contracts using the practical expedient portfolio approach.</li> <li>The adoption of the standard did not have a material impact to the recognition and timing of its revenues, but required the Company to change the presentation of Interest Income and Refunds to Participants from a net basis to a gross basis in the accompanying Condensed Statements of Income. See Note 2 for additional information.</li> </ul>

Standard	Description	Impact on the financial statements or other significant matters
Recently Adopted Account	ing Standards (continued)	
Compensation - Retirement Benefits <i>Issued March 2017</i>	<ul> <li>Requires the service cost component of net periodic pension and postretirement benefit cost to be reported separately in the Company's Condensed Statements of Income.</li> <li>Requires retrospective application and presentation in the Condensed Statements of Income.</li> <li>Requires the service cost component in the same line item as other employee compensation costs and presentation of the other components in a different line item from the service cost component.</li> </ul>	• The adoption of the standard and required reclassification did not have a material impact or a change to the Company's Condensed Statements of Income. The adoption required the Company to reclassify certain components of net periodic pension cost allocated to the Company (Note 8) from Total operating income to Total non-operating income (expense). The service cost component is
Statement of Cash Flows - Restricted Cash Issued November 2016	<ul> <li>Requires inclusion of restricted cash in the cash and cash equivalents balances in the Condensed Statements of Cash Flows.</li> <li>Requires additional disclosures to supplement the Condensed Statements of Cash Flows.</li> <li>Requires retrospective application to all periods presented.</li> </ul>	<ul> <li>Adopted April 1, 2018.</li> <li>The Company adopted the new restricted cash standard under the retrospective method of adoption.</li> <li>The adoption did not change the Company's Condensed Statements of Financial Condition or Statements of Income; however, it resulted in a presentation change related to the Condensed Statements of Cash Flows by broadening the definition of cash and cash equivalents to include items that are not on the balance sheet's cash line, e.g., Participants' segregated cash, Clearing Fund cash deposits and Cash in Other Participants' assets. See Note 2 for additional information.</li> </ul>

#### 8. PENSION AND POSTRETIREMENT BENEFITS

Eligible DTCC employees participate in DTCC's trusteed non-contributory defined benefit pension plan, supplemental executive retirement plan and benefit restoration plan, which provide for certain benefits upon retirement. Eligible DTCC employees also participate in DTCC's life insurance program, which provides for the payment of death benefits to beneficiaries of eligible retired employees, and DTCC's health care program, which provides benefits to eligible retired employees.

**Cost allocation.** DTCC allocates the cost of these plans to its subsidiaries based primarily upon the estimated proportion of each subsidiary's salary cost relative to DTCC's total salary cost. The benefit plan costs allocated to NSCC were \$770,000 and \$669,000 for the three months ended June 30, 2018 and 2017, respectively, and \$1,519,000 and \$1,332,000 for the six months ended June 30, 2018 and 2017, respectively. These costs are included in Employee compensation and related benefits, Interest expense, and Other non-operating income in the accompanying Condensed Statements of Income.

#### 9. COMMITMENTS AND CONTINGENCIES

**Litigation.** The Company is involved in legal proceedings and litigation arising in the ordinary course of business. In the opinion of management, the outcome of such proceedings and litigation is not expected to have a material effect on the accompanying Condensed Statements of Financial Condition, Income or Cash Flows.

#### **10. GUARANTEES**

NSCC provides CCP services, including clearing, settlement and risk management services. Acting as a CCP, NSCC guarantees the settlement of trades in the event one or more of its Participants defaults. A Participant default is defined in NSCC's rules. In its guarantor role, NSCC has equal claims to and from Participants on opposite sides of netted transactions. To cover its guarantee risk, NSCC uses risk-based margining to collect cash and securities collateral through its Clearing Fund. NSCC's trade guaranty attaches at the point of validation for locked-in submissions, or at the point of comparison and validation for bilateral submissions.

Details for certain NSCC's open positions for which a trade guarantee applied as of June 30, 2018 and December 31, 2017 follow (in billions):

NSCC

 2018		 2017	
\$	186	\$	135

There were no defaults by Participants to these obligations.

See Note 15 in NSCC's Audited Financial Statements for the years ended December 31, 2017 and 2016 for additional information.
