<b>Date:</b>	April 14, 2014
<b>To:</b>	All Cost Basis Reporting Service (CBRS) users
<b>From:</b>	Product Management
<b>Subject:</b>	Participant Testing for CBRS Enhancements for Planned Production of July

Participant testing of input and output for the Cost Basis Reporting Service (CBRS) changes to support options will be available beginning on **May 2, 2014**, in the Participant Services Environment (PSE) for CBRS.

DTCC Important Notice # CBRS004.13, dated October 22, 2013, described the various changes to the record layouts. These changes apply to data input and output via the automated mainframe connection, as well as to Web Direct screens and the Upload template.

The PSE region for CBRS testing will be available for customers on weekdays from 9:00 a.m. until 4:00 p.m. ET. Any CBRS input submitted in PSE will result in CBRS output being produced and available in PSE.

Use of CBRS test files, regardless whether they are input or output files, requires that the file subscriptions at DTCC be activated and current for the CBRS test. To request that a specific file subscription is current for your firm contact: [NSCCSupport@DTCC.com](mailto:NSCCSupport@DTCC.com) ; in the subject line of the email state: "MRO Subscription."

Below is a list of CBRS test file numbers and descriptions relative to this implementation.

<b>Test File #</b>	<b>Description</b>
46708	DATATRAK input file --- CBRS Asset and Tax Lot Record Input
02980264	CBRS Transaction output ---machine readable output (MRO)
02981663	CBRS Transaction Request output ---download
02981664	CBRS Transaction output end of day output ---download

Additionally, four variations of a canned transaction output file will be available in the PSE CBRS test region. The CBRS canned output will provide a sample of what to expect as CBRS transaction output based on the changes implemented. The four CBRS output canned files correspond to the type of user receiving the file. The contents, such as the Transaction Types, of each file vary based on the user type. Please be specific when ordering your canned output test file.
