<b>SUBJECT:</b>	<b>ETF BROWSER COMPATIBILITY ENHANCEMENTS</b>

As per the NSCC Important Notice A# 8086, P&S# 7661 issued September 18, 2015, “Effective Friday, November 13, 2015, National Securities Clearing Corporation (NSCC) will implement enhancements to the ETF Browser into production. The ETF Browser will provide native support for Internet Explorer (11.0.96). Migration of enhancements into production will take place after 5:00 PM Eastern on Thursday, November 12, 2015.”

Implementation of these enhancements follows extensive client outreach and requests for feedback. On October 15, 2015, DTCC issued a client letter announcing its plans to support Internet Explorer 11 by November 30, 2015 and that certain DTCC products had already retired support for Internet Explorer 8. NSCC will retire support for Internet Explorer 8, specifically for the ETF Browser, concurrent with this release.
