P&S#:	7643
DATE:	AUGUST 17, 2015
TO:	ALL PARTICIPANTS
FROM:	PRODUCT MANAGEMENT, EQUITIES CLEARANCE
ATTENTION:	IT, OPERATIONS, PURCHASES & SALES (P&S), SETTLEMENT
SUBJECT:	TESTING AVAILABLE FOR OBLIGATION WAREHOUSE(OW) WEB

The National Securities Clearing Corporation (NSCC) is migrating to Microsoft Internet Explorer version 11 for all internet based web portals. The Obligation Warehouse (OW) will be upgrading to the Internet Explorer version 11 on September 10, 2015.

In preparation for the browser upgrade, all OW Web users have an opportunity to use the Internet Explorer version 11 to access the OW Web Test (PSE) region. If you are encountering issues viewing information on the OW Web with the new upgrade try the compatibility mode found in the Tools section of the browser window.

The Obligation Warehouse (OW) functionality has not changed, only the ability to access using various versions of Internet Explorer has expanded.

If you have additional questions about change in browser, contact NSCC Support at 1-888-382-2721, option 1, then option 2; or Business Operations at 1-888-382-2721, option 2, and then option 2.
