Ed Fanning  
Director, Product Management

.....

The Corporate Bond, Municipal Bond, UIT Real Time Trade Matching System (CMU RTTM) can recalculate the final money of When Issue (WI) municipal bond trades when security masterfile updates are applied to trades in new municipal CUSIPs with a scheduled settlement date that is at least two business days in the future.

Recalculations can occur due to changes and/or updates to a municipal security that resulted in a change to the Final Money and/or Settlement Date, including but not limited to, changes in the initial settlement date or interest accrual date.

**Repriced Trade Report**

Effective August 19, 2016 a daily report will be available that lists municipal bond WI trades that have been repriced due to a security update from the prior business day. Only trades in CMU RTTM that have had a change in Final Money and/or Settlement Date from the prior business day will be captured on the Repriced Trade Report.

The Repriced Trades Report will appear in CMU RTTM's Report Center on CMU RTTM Web along with the other CMU RTTM reports. A sample report is illustrated below.

The Repriced Trades Report will indicate the reprice reason using the following codes:

FM                Final Money Changed  
SD                Settlement Date Changed  
FMSD            Final Money and Settlement Date Changed

**Trades in Municipal Bond Cancelled Issues**

CMU RTTM designates matched WI municipal bond trades as ‘Comparison Only’ when it is alerted at least two business days prior to a CUSIP’s planned settlement date -2 that the municipal bond CUSIP has been cancelled by the underwriter. Designating trades as “Comparison Only” removes them from CMU and they do not appear on the NSCC Consolidated Trade Summary (CTS).

Trades in these cancelled CUSIPs will appear on the Repriced Trades Report with the following reason codes:

CXL              WI CUSIP has been cancelled. Trades in cancelled CUSIPs will be designated by CMU RTTM as Comparison Only to remove them from the system.

*Please note that in order for the Comparison Only designation to be applied to matched WI trades in cancelled municipal bond CUSIPs and for trades to appear on the new Repriced Trades Report, CMU RTTM must receive notice of the CUSIP’s cancellation at least two business days prior to the CUSIP’s planned initial settlement date. If the cancellation notification is received later, WI trades will not appear on the Repriced Trades Report and will be handled separately by NSCC.*

LATE            CMU RTTM had a future initial settlement date on file for a CUSIP and was notified that the issue had already settled. CMU will designate matched trades as Comparison Only to remove them from the CMU system. They are not forwarded to NSCC settlement systems and will not appear on the NSCC CTS (this is a rare occurrence).

Below is a sample report.
