<b>Subject:</b>	Special Announcement Regarding Today's 3-Year Note Treasury Auction

**TODAY'S 3-YEAR NOTE AUCTION RESULTED IN AN UNSCHEDULED REOPENING OF THE 10-YEAR NOTES OF SERIES F-2022 (CUSIP NO. 912828TY6)**

Today, the Government Securities Division ("GSD") was informed that the Treasury Department announced a new 3-year note offering on October 30, 2019; the interest rate of 1-5/8 percent determined at today's auction for these securities matches that of an outstanding 10-year note with the same maturity and interest payment dates. In accordance with Treasury's past procedure, the 3-year note will be considered an additional issue of the outstanding 10-year note of Series F-2022 (CUSIP NO. 912828TY6) originally issued November 15, 2012.<sup>1</sup>

At the close of business day today, GSD will disable trade submissions on CUSIP 912828YR5 and update its security masterfile to reflect CUSIP 912828TY6 as a reissued security with the appropriate reissue date. The process will also modify all open trades, compared and uncomparing, in the DVP application and replace CUSIP 912828YR5 with CUSIP 912828TY6. All other details of the trade will remain the same, inclusive of a member's submitted Xref number and the GSD system generated Transaction ID (TID) number.

Members will receive the following output:

For an **uncompared** trade:

- Cancel Processed – MT509
- Screen Input Trade Replay – MT518 reflecting the new CUSIP
- End of Day MRO Record – 03 (cancel) and 07 (instruct)

For an **advisory**:

- Comparison Request Modify – MT518

For a **compared** trade both sides will receive:

- Cancel Processed – MT 509
- Trade Input Accepted – MT509
- Trade Compared – MT509
- Post Comparison Trade Modification – MT518 reflecting the new CUSIP
- End of Day MRO Record – 03 (cancel), 07 (instruct), 01 (match)

Because this type of reopening does not occur often, GSD is informing its members of this special processing in order to make members aware of the steps GSD will perform.
