

## Michael Winnike

**Managing Director, Clearing & Securities Services  
(CSS) Strategy and Market Solutions**

---

Michael Winnike is DTCC's Managing Director, Clearing & Securities Services (CSS) Strategy and Market Solutions, where he oversees strategic planning across the CSS business and industry engagement. He also provides oversight for embedded risk management teams and the CSS data office overseeing data strategy and management. Within this role, he partners across the organization to define strategic objectives, develop a holistic strategy that connects and aligns asset classes and market segments, and leads key enterprise-wide initiatives. In addition, Michael identifies new market opportunities to grow the CSS business and supports the development of innovative solutions to meet the evolving needs of DTCC's clients.

Prior to DTCC, Michael served as Global Head of Market Structure within BlackRock's Global Trading organization where he was responsible for influencing and shaping market structure across asset classes and products. This included defining and implementing trading platform enhancements and managing BlackRock's clearing strategy and swap clearing relationships. Prior to this role, Michael was a member of BlackRock's Prime Brokerage Financing team. Michael began his BlackRock career as a member of the Legal and Compliance Department, providing coverage for BlackRock's derivatives and cash trading platforms.

Michael holds a Bachelor of Arts degree from Whitman College.
