OVERVIEW

DTCC Money Market Kinetics provides daily or intraday feeds of anonymized Commercial Paper (CP) and Institutional Certificates of Deposit (CD) settlement transactions data (excluding IPA to dealer) to enhance analysis of this enormous market.

Each day DTCC’s depository subsidiary, Depository Trust Company (DTC), processes and settles approximately $300 billion in new issuances, maturities and turnaround deliver orders for CP and Institutional CDs, generating detail-rich, multi-field records on these transactions.

With Money Market Kinetics, DTCC is increasing transparency in this market by offering secondary settlement-transaction data for CP and Institutional CDs. The exceptional depth and breadth of data provided by DTCC Money Market Kinetics enables users to create benchmarks and indexes, analyze trade volumes and rates, and perform other monitoring and analytical tasks.

This service delivers settlement transaction data as a single, streamlined feed that is searchable across numerous fields, including but not limited to, security ID, security description, product type, issuer name, settlement date, maturity date, principal amount, settlement amount, interest rate and interest rate type.

ADVANCING FINANCIAL MARKETS. TOGETHER.™
EXTENSIVE TRANSACTIONAL DATA

DTCC Money Market Kinetics delivers transactional data sourced from DTC's settlement engine for these instruments. The high volume of market activity settled through DTC enables this data service to offer outstanding depth and breadth of data coverage. The following statistics, which are subject to change, indicate the size of the CP/Institutional CD market in 2016:

- The CP and Institutional CD Markets each have some three dozen issuing/paying agents.
- Approximately $1.2 trillion in CP and $1.0 trillion in Institutional CDs are on deposit at DTC.
- The approximately 3,200 eligible issuers of CP each day release, on average, some 2,400 issues worth more than $85 billion.
- The approximately 350 eligible issuers of Institutional CDs together average close to 500 daily issuances worth more than $20 billion.
- In addition to current settlement transactions, users can get access to historical transactions data, from November 2014 forward.

HOW THE SERVICE WORKS

- DTCC Money Market Kinetics is derived from DTC’s settled dealer turnarounds and directly-placed paper transactions.
- There are several options for data delivery:

**DTCC Money Market Kinetics:**

1. **End of day:** Approximately 7:15PM ET, containing all transactions for the day.
2. **Intra-day:**
   - Every half hour from 8:15AM ET to 7:15PM ET cumulative files.
   - Internet via SFTP
