GLOBAL CHALLENGES

INCREASED REGULATORY SCRUTINY

The climate of enhanced regulatory scrutiny on data quality is adding to the complexities of adapting to revised global trade reporting rules.

DATA QUALITY FRAMEWORK

Building a Data Quality Controls framework is a time-consuming and costly ongoing task compounding the challenge.

SOLVE THESE COMPLEXITIES WITH DTCC'S TRADE REPORTING ANALYTICS

KEY FEATURES

DAILY DATA QUALITY CHECKS

Billions of daily checks across TSR, TAR, MSR and MAR reports, coupled with dynamic peer comparison.

USER-FRIENDLY PORTAL

Intuitive access to your unique insights via our dynamic, self-service web interface.

DATA AT YOUR FINGERTIPS

Leverage our library of more than 200 data insights to assess your own reported OTC and ETD trade and transaction data accuracy.

Spend less time and money defining and identifying data quality issues and more time resolving them.
