

# Achieve More With Your Xchange

# DTCC

DTCC's MF Info Xchange gives you the tools to accomplish more throughout your communication process.

## API CAPABILITIES

Automate your event communication process, customize data extraction, and achieve straight-through processing directly to and from your internal system(s).

## EASILY LINK TO DOCUMENTS

Integrate other reference materials by providing a link in the Comments field.

## DESIGNATE EMAIL RECIPIENTS BY EVENT TYPE

Ability for notification receivers to designate email recipients by Event Type.

## NEVER MISS ANOTHER EVENT

The event calendar allows you to view, track and search for all events – past, present and future.

## INTUITIVE AUDIT TRAIL

View and search notification history with intuitive audit trail functionality.

## SEAMLESS INTEGRATION WITH MF PROFILE SECURITY

Minimizes the risks associated with manual data entry by utilizing a single data source.

## COMMUNICATE EFFECTIVELY

Pre-defined and standardized data elements reduce interpretation by eliminating lengthy, complex notifications while delivering consistent information.

## CONNECT TO ALL IN ONE CLICK

Connect to all of your distribution partners via one message.

**\*Notification recipient DOES NOT need to subscribe to MF Info Xchange.**
