

How Is Market Volatility Impacting Money Market Securities?

April 2, 2026

Key Take Aways:

- **March month-to-date settlement activity was reported at 100.30% of the prior 12-month average**, providing a point-in-time view of overall money market activity levels relative to recent history.
- **Settlement amounts varied across instrument types**, with differences observed between fixed and variable CDs and commercial paper when compared with their respective historical averages.

In times of unprecedented market volatility, providing market transparency is critical. Our DTCC Money Market Kinetics *Snapshot*, derived from the DTCC Money Market Kinetics product, offers insights into the 7 trillion dollar money markets.
