

2014 Q3 SYSTEMIC RISK BAROMETER SUMMARY

DTCC

Securing Today. Shaping Tomorrow®

DTCC's most recent Systemic Risk Barometer survey was completed in Q3 2014 and compiles the emerging risk views of DTCC clients and a broad range of global stakeholders from the financial services industry.

TOP 5 SYSTEMIC RISKS TO THE BROADER ECONOMY

37% OF RESPONDENTS SAID THAT THE PROBABILITY OF A HIGH-IMPACT EVENT IN THE GLOBAL FINANCIAL SYSTEM HAS INCREASED

76% OF ALL RESPONDENTS INDICATED THEY HAVE INCREASED THE AMOUNT OF RESOURCES DEDICATED TO IDENTIFYING, MONITORING AND MITIGATING SYSTEMIC RISKS

33% RANKED CYBER THREATS AS THE NUMBER ONE SYSTEMIC RISK TO THE BROADER ECONOMY

*Percentage increase 2014 Q3 over 2014 Q1

The DTCC Systemic Risk Barometer assess and measures the financial industry's sentiment on significant and emerging trends that impact the safety, resiliency and continued sustainability of the global financial system. The Barometer analyzes information provided respondents comprising DTCC clients, including broker/dealers, banks, service bureaus, mutual fund companies, hedge funds and insurance companies and financial industry professionals from regulatory bodies, academia and research organizations globally.
