

Andrew Douglas

Managing Director, Government Relations for EMEA and Asia

Andrew Douglas is Managing Director of Government Relations for EMEA and Asia at The Depository Trust & Clearing Corporation (DTCC).

Andrew plays a key role in representing DTCC's public policy positions to officials of the European Union and its Member States, the United Kingdom and multiple jurisdictions in Asia. He represents DTCC in dealings with other European and UK organizations, such as regulators, central banks and industry trade associations. Andrew is also responsible for communicating DTCC's European and UK policy agenda and for building upon existing relationships with individuals and groups in the public policy-making process. In addition, he represents DTCC at relevant forums, advises senior management on pending legislation and policy issues and provides input to DTCC business line managers about European and UK issues relevant to their products.

During his career at DTCC, Andrew was Chief Executive Officer of DTCC's European Trade Repository (DDRL) from 2015-2019 and was a founding board member of GlobalCollateral – a collateral joint venture between DTCC and Euroclear.

Andrew joined DTCC from the Society for Worldwide Interbank Financial Telecommunication (SWIFT), where he headed the Belgium-based cooperative's Securities Research and Development team. During his tenure at SWIFT, he was instrumental in developing the "Giovannini protocol," which harmonized communication standards among equity post-trade infrastructures in Europe.

Prior to joining SWIFT in 1999, Andrew spent two years as head of the middle-office and client service teams for fixed income and money market products at Deutsche Bank's investment bank. He began his financial services career in 1988 at Citibank, where he worked in clearing and custody.

Andrew is also Chairman of the European-Asia Financial Services Roundtable based in Brussels.

Andrew has an MBA from Manchester Business School and a Bachelor of Science degree in Materials Science and Engineering from the University of Surrey.

About DTCC

With over 45 years of experience, DTCC is the premier post-trade market infrastructure for the global financial services industry. From 21 locations around the world, DTCC, through its subsidiaries, automates, centralizes and standardizes the processing of financial transactions, mitigating risk, increasing transparency and driving efficiency for thousands of broker/dealers, custodian banks and asset managers. Industry owned and governed, the firm simplifies the complexities of clearing, settlement, asset servicing, data management, data reporting and information services across asset classes, bringing increased security and soundness to financial markets. In 2020, DTCC's subsidiaries processed securities transactions valued at more than U.S. \$2.3 quadrillion. Its depository provides custody and asset servicing for securities issues from 170 countries and territories valued at U.S. \$73.5 trillion. DTCC's Global Trade Repository service, through locally registered, licensed, or approved trade repositories, processes 15 billion messages annually.
