

DTCC'S MIFID ARM SERVICE

[CONTACT US TO GET STARTED](#)

DTCC's MiFID ARM solution delivers end-to-end reporting, combining error correction support, a 24/7 dedicated back-reporting channel, and integrated data analytics to support more efficient compliance and stronger confidence in your regulatory reporting.

For over a decade, DTCC has distinguished itself as a trusted authority in regulatory reporting, supporting firms through complex regulatory change and increased scrutiny around data quality.

More than 5,000 firms worldwide already trust DTCC with their reporting needs. You can too.

Key Benefits

SEAMLESS ONBOARDING

- Dedicated team and single point of contact to assist with onboarding.
- Self-service tooling to set up accounts, set permissions and subscribe to reports and alerts.

MULTIPLE CONNECTIVITY AND SUBMISSION FORMATS

- Resilient, scalable and stable cloud-native platform supports submissions in CSV and XML via MQ, SFTP and Web Upload channels.
- DTCC/ISDA collaboration on Common Domain Model/Digital Regulatory Reporting.

COMPREHENSIVE ANALYTICS

- Access insights daily and easily investigate, schedule and download results.
- Trade Reporting Analytics – offers near real-time, fully automated data quality oversight, through detailed peer comparisons, root cause identification, and historical trend analysis.

DEDICATED BACK-REPORTING CHANNEL

- Dedicated, 24/7 back-reporting channel into the ARM, for seamless in-sequence processing.
- Submissions error report supports timely issue resolution.

QUALITY CONTROL ASSURANCE

- Highly performant ingestion layer with rapid response generation.
- Error Corrections Engine simplifies exception management and large-scale back-reporting, helping firms correct many issues efficiently and at volume.
- ARM and NCA ACK/NACK status management through intra-day and end of day reports.
- Cloud-to-cloud data sharing gives clients access to their full database in their own cloud.

INDUSTRY ADVOCACY

- DTCC's dedicated government and regulatory liaison teams based in Brussels and London focused on financial services policy across Europe.
- Acting as trusted partners and strategic advisors, our in-house subject matter experts advocate on industry issues.

OUTSTANDING CLIENT EXPERIENCE

- Single, consistent user interface across all global regulations, including MiFID.
- 24/6 follow-the-sun-telephone support augmented with DTCC's MiFID reporting subject matter experts.
- Regular and transparent communication on updates.
