# INTRODUCTION

The Depository Trust Company's (DTC) Automated Tender Offer Program ("ATOP") Agent User Guide provide the Agent with information on how to use the DTC function, ATOP, when acting as tender agent for a voluntary corporate action event made eligible on ATOP, such as a merger with elections. This document supersedes any prior dated DTC ATOP Agent Procedures or User Guides.

ATOP is an instruction processor which automates the way tender, and exchange offers are processed through DTC. When an Agent processes an offer through ATOP, DTC Participants ("Participants") are able to (i) submit instructions, elections, or acceptance, as the case may be, for the Offer without needing to provide a letter of transmittal<sup>1</sup> or a notice of guaranteed delivery<sup>2</sup> (when applicable) to the Agent, which will instead receive an electronic message transmitted by DTC with respect to each instruction and election (the "Agent's Message"), and (ii) tender the subject securities directly from the Participant's account into the Agent's account maintained by DTC for purposes of the ATOP-eligible Offer.

In accordance with these instructions, DTC effects book-entry delivery of the surrendered securities from the electing Participant's account and credits an account maintained by DTC on behalf of the Agent. If applicable to the offer, a Shipment Control List (SCL) evidencing the credit to the Agent's DTC FAST<sup>3</sup> account of the tendered securities is made available by DTC to the Agent to confirm the drawdown, upon allocation of the entitlements received from the Agent, (i.e., cash, securities, or cash and securities) by book-entry to the electing Participants. Similarly, DTC makes available to the Agent an add-to-balance SCL to the Agent's DTC FAST account if the entitlement payment in the offer is securities. Agent is to promptly confirm the balances of each SCL in the DTC FAST system when made available to the Agent.

As described in detail herein, DTC transmits Agent's Messages to the Agent after having received instructions from Participants transmitted in ATOP to (1) accept an offer by tendering/surrendering the target securities of the offer, (2) accepting an offer by means of a Notice of Guaranteed Delivery ("submitting a protect"), if applicable to the

---

<sup>1</sup> The letter of transmittal is the basic instrument for effecting transfer of tendered securities. It is the document by which a securityholder of the subject company's securities, as applicable, accepts the invitation to tender or offer to purchase; offers to sell the subject company's shares to the bidder; appoints the depository as the agent to receive and hold tendered securities; and guarantees to deliver the subject company's securities to or actually deposit the subject company's securities with the depository.

<sup>2</sup> A notice of guaranteed delivery, sometimes called a "protect," is a document submitted to the tender agent prior to the expiration of the tender offer whereby the holder submitting the notice guarantees delivery of securities (a "cover" of the protect) after the expiration of the tender offer but before the expiration of the protection period.

<sup>3</sup> DTC's Fast Automated Securities Transfer ("FAST") Program is a contract (under the "Balance Certificate Agreement") between DTC and Transfer Agent that eliminates the movement of physical securities by allowing the agent to act as custodian for DTC. Securities eligible for ASOP processing, both the target security and the entitlement/underlying security or securities, must be eligible to be held by Agent in their FAST account and the security certificate for such security or securities shall remain in the applicable FAST Agent's custody as a balance certificate ("Balance Certificate") subject to the provisions of the applicable Balance Certificate Agreement.

offer (3) covering the protect through ATOP, and (4) if applicable to the offer, submitting a withdrawal request of an instruction to the Agent for approval or rejection.

The operating procedures Agents are to use for offers qualifying for ATOP are contained in the Agent User Guide.

## DTC AGENT MASTER AGREEMENT

To become and remain an Agent eligible to have offers enabled on ATOP, and prior to making any offer eligible for ATOP, Agent must have performed the following:

- I. Obtain the proper connectivity to access the ATOP as may be required by DTC, and will have a Reorg Agent (RA) number assigned by DTC (unless Agent has an existing FAST Agent Transfer Agent number which will be linked by DTC to be used as a RA number) for the purpose of ATOP connectivity;
- II. Execute a DTC Operational Arrangements (“OA”)<sup>4</sup> Agent Letter, if the Agent does not already have one on file with DTC; and
- III. Execute an Automated Tender Offer (ATOP) and Automated Subscription Offer Program (ASOP) Agent Master Agreement (“ATOP/ASOP Master Agreement”).

The ATOP/ASOP Master Agreement, the DTC Rules and Procedures, including, without limitation, the OA, as may be amended from time to time, and the Letter of Agreement (“LOA”) for each particular Offer accepted for processing on ATOP/ASOP will govern the rights and obligations of the Agent in respect of each ATOP-eligible Offer or ASOP-eligible Offer<sup>5</sup>, as the case may be. Agent is to refer to the ATOP/ASOP Master Agreement, the DTC Rules and Procedures, and to DTC’s OA for details of the Agent’s acknowledgements and agreements.

---

<sup>4</sup> To obtain a current copy of DTC’s OA, please visit DTCC website at: <https://www.dtcc.com>.

<sup>5</sup> Agents and Issuers are advised that DTC has discretion to decline to process any Offer, and DTC’s acceptance of a particular Offer in one case does not set a precedent for future offers or events. All Agents and Issuers with a proposed non-standard Offer that could require special processing must confirm with DTC whether the Offer can be processed on the ATOP or ASOP platform before including references to, or instructions or directions for, ATOP or ASOP processing in any SEC or court filing or any notice to holders.

## ATOP ELIGIBILITY OF AN OFFER

For DTC to make an offer eligible on ATOP, the Agent must send the offering announcement, including a source document, and a completed DTC questionnaire (in the form that DTC requires) to DTC within the timeframes and manner described in DTC's OA. Upon review of the offering announcement submission, DTC may require the Agent to provide additional documentation to DTC with further clarity on the offer. When this review has been completed to DTC's satisfaction and has met the applicable requirements to be announced to DTC Participants, DTC will make the offer available on ATOP upon Agent's approval of the Letter of Agreement ("LOA"). DTC will post the terms of the offer on ATOP viewable by the Agent on the Tender Offer Details screens of the ATOP function.

Within one business day of the posting, Agent is required to review and approve the details of the offer and to approve the terms of the LOA<sup>6</sup> for the offer, by entering an acknowledgement in the space indicated on the screen, (See Exhibit III). Agent will review the LOA screens and the Tender Offer Detail screen for completeness and accuracy. Once the approval is entered by the Agent, the offer is made eligible for ATOP processing and is available to Participants to enter instructions starting on the Voluntary Offer Instruction ("VOI") start date. Any delays in approving the LOA by Agent may impact the timeliness of opening the offer to Participants. If the Agent reviews the details of the offer and the terms of the LOA and disagrees with one or more of the terms or details, the Agent must notify DTC of its disagreement by entering the LOA rejection and the reason for the rejection on the screen, and by email to the DTC Reorganization (Reorg) contacts provided in the LOA. DTC, at its option, may collaborate with the Agent to modify the terms and resolve any differences with the Agent. DTC will not make an offer available to the Participants to enter instructions until the Agent has entered the approval.

## ACCEPTANCE OF THE OFFER AND SURRENDER OF THE SECURITIES TO THE AGENT THROUGH ATOP

For any offer eligible under ATOP, Participants wishing to accept the offer and surrender the securities must do so through ATOP. This is also referred to as entering a Voluntary Offer Instruction ("VOI") or entering an "election." When a Participant enters an acceptance of the offer by means of ATOP and transmits such acceptance to DTC, DTC's ATOP system:

1. Verifies the information provided by the Participant in its acceptance which includes that the Participant has entered an acknowledgment of their receipt of, and agreement to be bound by the Letter of Transmittal required by the offer identified by the contra-CUSIP number specified in the Participant's acceptance;

---

<sup>6</sup> In the event the ATOP screen allowance is not sufficient to complete the entire LOA, the LOA will be available to the Agent via email.

2. Effects a book-entry delivery of the surrendered securities to the account of the Agent maintained by DTC for purposes of the offer, and
3. Transmits a message (the “Agent’s Message”) to the Agent available through DTC’s ATOP system indicating the Participant’s acceptance of the offer and reflecting the details of the book-entry delivery of the securities into the Agent’s account. (See a sample of an Agent’s Message transmittal of an acceptance on the Tender Offer Instruction Detail screen in Exhibit II.) Please also see Section 5.0- “AGREEMENT ON TIME OF RECEIPT OF AGENT’S MESSAGE.”

The Agent inspects the Agent’s Message upon receipt. If the Agent determines that the acceptance of an offer reflected on the Agent’s Message is deficient for some reason, it is the sole responsibility of the Agent to promptly notify the affected Participant directly to resolve the issue and/or request that the Participant enter a withdrawal of its acceptance. The Agent must also promptly notify DTC about the deficiency by emailing the DTC contacts listed in the LOA for the specific offer.

## **ACCEPTANCE OF THE OFFER BY SUBMITTING A NOTICE OF GUARANTEED DELIVERY (“PROTECT”) THROUGH ATOP**

For any offer eligible under ATOP on which the Agent accepts Notices of Guaranteed Delivery to be satisfied during a period after expiration of the offer, Participants wishing to accept the offer may do so by submitting a Notice of Guaranteed Delivery (also known as a “protect”) through ATOP. When a Participant enters an acceptance of the offer by means of a Notice of Guaranteed Delivery through ATOP and transmits such acceptance to DTC, DTC’s ATOP system:

1. Verifies the information provided by the Participant in its acceptance which includes that the Participant has entered an acknowledgment of their receipt of, and agreement to be bound by the Notice of Guaranteed Delivery required by the offer identified by the contra-CUSIP number specified in the Participant’s acceptance;
2. Effects a book-entry delivery of the surrendered securities to the account of the Agent maintained by DTC for purposes of the offer, and
3. Transmits a message (the “Agent’s Message”) to the Agent available through DTC’s ATOP system indicating the Participant’s acceptance of the offer and reflecting the details of the book-entry delivery of the securities into the Agent’s account. (See a sample of an Agent’s Message transmittal of protect submission in Exhibit V.) Please also see Section 5.0- “AGREEMENT ON TIME OF RECEIPT OF AGENT’S MESSAGE.”

The Agent inspects the Agent’s Message upon receipt. If the Agent concludes that the acceptance of an offer by the Notice of Guaranteed Delivery reflected on the Agent’s Message is deficient for some reason, it is the obligation of the Agent to notify the effected Participant directly. The Agent must also promptly notify DTC about the deficiency by emailing the DTC contacts listed in the LOA for the specific offer.

## ACCEPTANCES OF THE OFFER BY A NOTICE OF GUARANTEED DELIVERY AND SUBSEQUENT SURRENDER OF SECURITIES (“COVER A PROTECT”) THROUGH ATOP

For any offer eligible under ATOP on which the Agent accepts Notices of Guaranteed Delivery to be satisfied during a period after the expiration of the offer, Participants may surrender securities (“cover a protect”) through ATOP in respect of Notices of Guaranteed Delivery previously submitted by Participants through ATOP, as described in the prior section. When a Participant enters an instruction to cover a protect and transmits such instruction to DTC during the period available under ATOP for this purpose to DTC, DTC’s ATOP system:

1. Verifies the information provided by the Participant in its acceptance which includes that the Participant has entered an acknowledgment of their receipt of, and agreement to be bound by the Letter of Transmittal required by the offer identified by the contra-CUSIP number specified in the Participant’s acceptance;
2. Effects a book-entry delivery of the surrendered securities to the account of the Agent maintained by DTC for purposes of the offer, and
3. Transmits a message (the “Agent’s Message”) to the Agent available through DTC’s ATOP system indicating the Participant’s acceptance of the offer and reflecting the details of the book-entry delivery of the securities into the Agent’s account. (See a sample of an Agent’s Message transmittal of protect submission and cover of protect submission in Exhibits V, VI, and VII.) Please also see Section 5.0- “AGREEMENT ON TIME OF RECEIPT OF AGENT’S MESSAGE.”

The Agent inspects the Agent’s Message upon receipt. If the Agent determines that the acceptance of an offer reflected on the Agent’s Message is deficient for some reason, it is the sole responsibility of the Agent to promptly notify the affected Participant directly to resolve the issue and/or request that the Participant enter a withdrawal of its acceptance. The Agent must also promptly notify DTC about the deficiency by emailing the DTC contacts listed in the LOA for the specific offer.

### AGREEMENT ON TIME OF RECEIPT OF AGENT’S MESSAGE

As described in the prior sections of this document, when a Participant submits through ATOP to accept the offer and surrender the securities (including submissions of Notice of Guaranteed Delivery or cover protect), DTC enters information about that submission (including the time of its transmission to DTC) into the information available to the Agent through the ATOP function (“the Agent Message”) which may be transmitted to the Agent after 5:00 p.m./6:00 p.m. NYCT, (depending on the DTC offer cut off time agreed to in the LOA) in connection with an acceptance processed after the normal cutoff time for such acceptances provided that such Agent’s Message is thereafter transmitted by DTC to the Agent in accordance with the User Guide.

Notwithstanding anything to the contrary, for purposes of making a determination of the timeliness of an instruction, election, or acceptance and, if applicable, the tender of securities,

the date and time of a Participant's submission of any instruction, election, or acceptance to DTC through ATOP (as reflected in the Transaction ID), and not the date and time of the transmission of the Agent's Message by DTC to the Agent, shall govern.

By way of example, but without limitation, for purposes of determining the timeliness of a Participant's instruction and/or tender in connection with an event, the Participant's instruction is deemed to have been timely received by, and, if applicable, the securities timely tendered to, the Agent when the date and time of the submission of a Participant's instruction to DTC (as reflected in the Transaction ID of the completed transaction) is prior to the applicable cutoff/expiration date and time, even if the transaction does not complete and/or an Agent's Message is not transmitted until after the applicable cutoff/expiration date and time for the event.

## INSTRUCTIONS AFTER DTC EXPIRATION DATE/TIME

DTC will confirm with Agent when verifying terms of the offer and finalizing the LOA the actual and DTC stated expiration date and time for the offer.

Consistent with its Rules, DTC will neither accept nor facilitate any instructions and/or protects (as may be applicable) after the DTC stated cutoff date/time and DTC has no responsibility or obligation to do so for offers in which the offering documentation allows for holders to participate in the offer after DTC's ATOP processor cutoff date/time (e.g., offers with 11:59 p.m. expiration time).

After the DTC cutoff date/time, the Agent will be responsible for administering such instructions and in any case, protects and the cover of protects, if applicable to the offer. This includes Agent being available to Participants and having the capabilities to facilitate the acceptance of instructions, and in any case, protects and the cover of protects (as they may apply to the offer) after DTC's expiration date and time. Agent will handle instructions and payments directly with Participants and Agent will provide direction to the Participants on how to participate in the offer, (i.e., how to submit an instruction to the Agent, deliver the tendered securities to the Agent, and at the settlement of the offer how they will receive the entitlement payment directly from the Agent). If Agent is not the tendering security Transfer Agent (TA), it is the responsibility of the Agent to coordinate directly with the TA to receive tendered securities and/or to deliver the security entitlements, if applicable, (e.g., via DTC's DWAC function for DTC FAST eligible issues).

Agent can advise DTC at the time of the offer verification (but no later than prior to Agent's approval of LOA) that Agent will not administer protects and cover protects for DTC Participants between the stated DTC date/time cutoff and the offer's actual cutoff. DTC will advise Participants accordingly and direct them to the Agent if they have any questions.

For offers in which the offering documentation allows for holders to participate in the offer and make elections on expiration date with an expiration time of *prior* to DTC's ATOP processor cutoff /time, (e.g., offer with a 11:00 a.m. expiration time), DTC's expiration date and time will be the business day prior at 5:00 p.m. or 6:00 p.m. NYCT, (depending on the offer terms). As

fully stated in the prior paragraphs, DTC will not facilitate nor accept any instructions through ATOP after DTC's stated expiration date and time for the offer and Agent will be responsible for administering such instructions, and in any case protects and the cover of protects, if applicable to the offer and any related payments directly with Participants, (and as previously stated Agent has the opportunity to advise DTC that Agent will not do so but no later than prior to Agent's approval of LOA).

## WITHDRAWAL OF ACCEPTANCES, INCLUDING ACCEPTANCES BY NOTICES OF GUARANTEED DELIVERY, OR INSTRUCTIONS TO COVER PROTECTS

Participants wishing to request withdrawals of acceptances of any offer eligible under ATOP pursuant to any withdrawal rights under the terms of the offer may do so through ATOP. Participants can request withdrawals of acceptances for the full amount of the VOI ("the instruction") or less than the full amount of the VOI (i.e., a partial withdrawal).

In the event a Participant enters a withdrawal request by means of ATOP and transmits such request to DTC, DTC's ATOP system:

1. Verifies the information provided by the Participant in its request relates to a previously completed tender of the securities or a previously submitted Notice of Guaranteed Delivery, and that the quantity of securities specified on the request is equal to or less than the quantity of securities specified in the acceptance (adjusted by any withdrawal requests previously submitted).
2. Transmits a message (the "Request Message") to the Agent available through DTC's ATOP system indicating the withdrawal request submitted by the Participant. (A sample of a Request Message appears in Exhibit IV.) The Request Message indicates the time the Participant's withdrawal request was received by DTC, which will be not later than 5:00 p.m./6:00 p.m. NYCT, as applicable to the offer.

The Agent inspects the Request Message upon receipt and takes the following steps:

1. Verifies the validity of the withdrawal request and determines to accept or reject it.
2. If the Agent determines to accept the request, transmits an acceptance (the "Withdrawal Acceptance") to DTC by means of the ATOP function by not later than 5:30 p.m./6:30 p.m. NYCT on any business day; or
3. If the Agent determines to reject the request, transmits a rejection (the "Withdrawal Rejection") to DTC by means of the ATOP function by not later than 5:30 p.m./6:30 p.m. NYCT on any business day.
4. The Agent can only accept or reject the request for the **full amount** of the withdrawal request.
5. The Agent must decide on the disposition of each withdrawal request and accept or reject all pending withdrawals in ATOP daily as described in points #2 and #3 above.

*Failure by Agent to accept or reject all pending withdrawals will delay the offer from being balanced with DTC and can further impact the timeliness of the allocation of the payment due to DTC Participants that instructed in the offers. In such case, DTC accepts no liability for the delay of the allocation.*

If the withdrawal request relates to previously delivered securities, the Withdrawal Acceptance constitutes an authorization from the Agent to DTC to deliver by book-entry from the Agent's account to the account of the Participant submitting the withdrawal request any securities which are the subject of the request. Upon receipt of such a Withdrawal Acceptance, DTC effects a book-entry delivery returning the withdrawn securities to the Participant. The Agent receives messages reporting processing of the withdrawal and deduction of the withdrawn securities from the Agent's account.

If the withdrawal request relates to an acceptance of an offer by means of a Notice of Guaranteed Delivery, the Withdrawal Acceptance constitutes an authorization from the Agent to DTC to reduce the quantity of securities to which the Notice of Guaranteed Delivery relates by the quantity of securities which are subject of the request. The Agent receives messages reporting processing of the withdrawal and reduction of the quantity of securities to which the Notice of Guaranteed Delivery relates.

DTC will transmit an Agent's Withdrawal Rejection to the Participant who submitted the rejected request.

## ACTIVITY CONFIRMATION STATEMENT

The activity confirmation statement is to be used by Agents to view totals on any business day the offer is open for instructions/acceptance of an offer and is to be used to confirm final totals after the close of the offer's expiration date and DTC cutoff time (as agreed to in the LOA) as further described in the next paragraph.

Starting at approximately 5:00 p.m. NYCT<sup>7</sup> on any day that a Participant has submitted an acceptance of an offer, including an acceptance by means of a Notice of Guaranteed Delivery, or an instruction to cover a protect to the Agent by means of ATOP, DTC makes available to the Agent an Agent ATOP Activity Confirmation Statement (the "Statement") reflecting, among other matters, (1) the total number of acceptances and the total quantity of securities delivered in respect of these acceptances to the Agent's account on that day, (2) the total number of acceptances by means of a Notice of Guaranteed Delivery and the total quantity of securities specified in the acceptances by means of a Notice of Guaranteed Delivery transmitted to the Agent on that day, (3) the total number of instructions to cover protects and the total quantity of securities delivered in respect of these instructions to the Agent's account on that day, and (4) the total number of withdrawals (including any Agent's rejections of acceptances, acceptances by means of a Notice of Guaranteed Delivery or

---

<sup>7</sup> This time would be starting at approximately 6:00 p.m. NYCT for those offers DTC and Agent agree in the LOA to a DTC cutoff of 6:00p.m., such as offers where the target CUSIP is an equity security, and the actual offer cutoff is 11:59 p.m.

instructions to cover protects) and the total quantity of securities withdrawn (including any Agent's rejections of acceptances, acceptances by means of a Notice of Guaranteed Delivery or instructions to cover protects) and the total quantity of securities withdrawn (including any Agent's rejections of acceptances, acceptances by means of a Notice of Guaranteed Delivery or instructions to cover protects) on that day. (See Exhibit II- Inquiry Tender Offer Details).

# EXHIBITS

## EXHIBIT I: Accessing ATOP

After signing into DTC's Participant Browser System (PBS) to access ATOP, on the main menu go to the Asset Services section and select "Corporate Action Services."

**Participant Browser Services (PBS)** DTCC [Log Out](#)

**Welcome to PBS!**  
Participant Browser Services (PBS) is the browser based version of the Participant Terminal System(PTS) offering standardized language and streamlined functionality.

**IMPORTANT NOTICE**  
DTCC is moving to a standardized and centralized support model that allows us to provide more of an interactive and intuitive client experience. As a result, we are replacing the WINS inquiry functionality with a "Support" option within MyDTCC. In order to ensure that you are ready to take advantage of the new feature and allow you to continue to submit inquiries, it is important that your user ID is visible or claimed within MyDTCC. While we are currently in the initial transition phases, we strongly recommend that you claim your ID by December 6, 2019 to avoid disruptions with submitting inquiries. Should you require assistance with claiming your ID, please contact your Super Access Coordinator at your firm.

For additional support contact the [Client Center](#).

We may place cookies and local shared objects on your computer. By using our Web site, you consent to this. See our [Privacy Policy](#) for more information.

**Clearance and Settlement Services**

**Settlement Services**  
Access to settlement details, activity and risk management information, with full DTC settlement processing capabilities.

**Omgeo Services**  
Access to functions for Participants that utilize Omgeo trade processing services.

**Canadian Dollar Settlement Services**  
Access to Canadian dollar Settlement/ P&I activity and details with full Canadian Dollar Settlement processing capabilities.

**Asset Services**

**Corporate Action Services**  
Dividend & Reorganization Announcement Information as well as full corporate action processing functions offered by DTC.

**Corporate Trust Services**  
Inquiry and processing functions for transfer, issuance and paying agents.

**Securities Processing Services**  
Securities processing information as well as complete processing functionality for deposits, withdrawals, and other related physical processing services offered by DTC.

Transaction ID:	<span style="border: 2px solid red; padding: 2px;">TTASI301072918</span>	Ticket Sequence:	1	Status:	MADE
Transaction Date:	10/28/2022	Submitted By:	D0000200-20		
Participant:	1210 /ATOP #1	Quantity:	3,283		
An "A" in the following parenthesis indicates that the participant named above acknowledged its receipt of, and agreement to be bound by, the letter of transmittal required by the offer identified by the contra CUSIP above : (A)					
Comment:	DANTEST				
Conditions:	N/A				
Contact Name:	SUBMITTED BY DTC	Contact Phone:	(000) 000 - 0000		

<a href="#">Previous Screen</a>		
<table border="1" style="width: 100%;"> <tr> <td style="text-align: center;"><a href="#">Services Menu</a></td> <td style="text-align: center;"><a href="#">Function Menu</a></td> </tr> </table>	<a href="#">Services Menu</a>	<a href="#">Function Menu</a>
<a href="#">Services Menu</a>	<a href="#">Function Menu</a>	

Offer Details: Enter "X" in the command box and click the submit button to see offer details for the selected offer.

The screenshot displays the DTCC PBS - Corporate Action Services interface. At the top, there are navigation links: Home, Message Center, Change Password, Help, Clear, and Logout. The page title is "Agent Tender - Tenders Contra CUSIP Inquiry". The date and time are 05/22/2023 - 17:26:52, and the user is logged on as N0000004-01.

Below the navigation is a "Search Criteria" section with a "Skip to Contra:" label and an empty input field. A "Submit" button is located to the right of the input field.

The "Search Results" section contains a table with the following columns: Command, Contra, Description, Original Instructions, Total Covers, Uncovered Protects, Associated Rights, Short Rights, and Transaction Type.

Command	Contra	Description	Original Instructions	Total Covers	Uncovered Protects	Associated Rights	Short Rights	Transaction Type
<input type="checkbox"/>	999995038	CONTRA CUST TEST &	145,245	20,768	294,232			A
<input type="checkbox"/>	999995095	CONTRA CONTRA CUST &	125	99	30			A
<input checked="" type="checkbox"/>	999995B2	\$ CONV TEST +#	120,000	0	0			A

Below the table, there is a note: "\*\*\* Valid Command: 'T' - Transactions, 'X' - Detail, 'R' - Short RTS, 'S' - Subtotals, 'C' - Activity Confirm \*\*\*". To the right of this note is a "No More." label.

At the bottom of the search results section, there are navigation links: "< Previous" and "Next >". A "Submit" button is also present.

At the very bottom of the page, there are two menu links: "Services Menu" and "Function Menu".

This will bring you to the details of the offer selected.

Rejecting the LOA: If you choose to reject the LOA select “Reject Setup,” and click the submit button, and follow the instructions on the next set of screens.

**Note**

Prior to rejecting the LOA in ATOP, Agent should contact DTC Reorg contacts provided in the LOA to gain clarity on any statements. DTC, at its option, may collaborate with the Agent to modify the terms and resolve any differences with the Agent. DTC will not make an offer available to Participants to enter instructions until the Agent has entered the approval.

## EXHIBIT IV: Option 3 – Accept/Reject Withdrawals and Inquiry

Agents are required to review pending withdrawals and make a determination to accept or reject withdrawal requests in a timely manner and prior to the expiration date and time. Pending withdrawals after expiration date will delay balancing the offer with DTC. To view and/or take action on withdrawal requests, enter Option 3- Accept /Reject Withdrawals Inquiry from the Agent Tender Main Menu list and click the submit button at the bottom of the screen. When selecting the option if there are pending withdrawals it will be displayed in the drop-down as in the example on the below screens. To view historical transactions, select “Yes” next to Historical and submit.

The screenshot shows the 'Agent Tender - Main Menu' interface. At the top, there are navigation links: Home, Message Center, Change Password, Help, Clear, and Logout. The page title is 'Agent Tender - Main Menu'. Below the title, there is a 'Please Select An Option' prompt. The main form area contains the following fields:

- Agent Tender Menu** (Required)
- Agent Number:** 00000008
- Option:** 3 - Accept/Reject Withdrawals and Inquiry (003 Pending Withdrawals)
- Historical:**  Yes  No

A red box highlights the 'Option' field and the '003 Pending Withdrawals' status. A 'Submit' button is located at the bottom right of the form area.

This will take you to the Agent Withdrawal Options screen. There are 4 options available to select are the following: 1-Instruction Withdrawal inquiry, 2- Accept/Reject Instruction Withdrawals, 3- Protects Withdrawal Inquiry, and 4- Accept/Reject Protect Withdrawals. If there are pending actions for the Agent to take it will be indicated in the drop- down menu next to the options.

The screenshot shows the 'Agent Tender - Agent Withdrawal Options' interface. At the top, there are navigation links: Home, Message Center, Change Password, Help, Clear, and Logout. The page title is 'Agent Tender - Agent Withdrawal Options'. Below the title, there is a 'Withdrawal Menu' section with the following fields:

- Withdrawal Menu** (Required)
- Option:** [Select Option] (Dropdown menu is open showing options 1-4)

The dropdown menu is open, showing the following options:

- 1 - Instruction Withdrawal Inquiry
- 2 - Accept/Reject Instruction Withdrawals (001 Pending)
- 3 - Protect Withdrawal Inquiry
- 4 - Accept/Reject Protect Withdrawals (002 Pending)

Red boxes highlight the '001 Pending' and '002 Pending' statuses. A 'Submit' button is located at the bottom right of the form area.

To inquiry, select Option 1-Instruction Withdrawal Inquiry and click the submit button.

EXHIBIT VII: Option 6 – Protect Covered on Behalf of Another Participant

To inquire on protects submitted with uncovered quantities, select Option 6 – Protect Covered on Behalf of Another Participant from the Agent Tender Main Menu list and click the submit button at the bottom of the screen.

The screenshot displays the 'Agent Tender - Main Menu' interface. At the top, there is a navigation bar with links for Home, Message Center, Change Password, Help, Clear, and Logout. The main content area is titled 'Agent Tender - Main Menu' and includes a timestamp '05/25/2023 - 15:45:58' and a login status 'Logged on as: N0000004-01'. Below the title, there is a prompt 'Please Select An Option'. The form contains the following fields: 'Agent Number' with the value '00000008', 'Option' with a dropdown menu showing '6 - Protects Covered on Behalf of Another Participant' (highlighted with a red box), and 'Historical' with radio buttons for 'Yes' and 'No'. A 'Submit' button is located at the bottom right of the form area. A 'Services Menu' link is visible at the bottom of the page.

This inquiry will provide a view of all protect submissions covered on behalf of another participant. Use the “Next” to move to the next list of protect submissions covered. From this screen, select a protect submission to view details by highlighting the command box and clicking on the submit button. (See next screen)
