

# Communication Process Re-Imagined

DTCC

## WHY MF INFO XCHANGE?

DTCC's MF Info Xchange is a powerful, all-encompassing communications platform for funds and intermediaries that facilitates and centralizes the delivery and receipt of time-critical notifications. When comparing MF Info Xchange to legacy email, it becomes readily apparent that MF Info Xchange offers so much more, especially when communicating corporate actions, service disruptions, large trade notifications and other time-critical notifications.

**MF Info Xchange can help your organization streamline and reduce risk throughout the communication process.**

Functionality	MF Info Xchange	Legacy Email
The ability to send an email to all applicable parties	✓	✓
The ability for receivers to designate recipient emails by event type, channeling notifications to responsible teams	✓	✗
