## How to Use This Guide

This guide presents in a readable format information contained in the Rules, By-Laws and Organization Certificate of The Depository Trust Company. Related processing fees are organized alphabetically by type of fee.

The guide is designed to be used primarily in electronic form so that users may easily reconcile their accounts in conjunction with DTCC's electronic billing system. An underlined entry is a link to either an internal cross-reference or to an entry in the glossary at the end of the guide. The guide can be printed on hard copy, however, the information may not be as easily usable in that format as it is electronically.

## Failure-to-Settle Charges

FEE NAME	AMOUNT (\$)	CONDITIONS	FEE ID
Participant net debit (\$)			537
First 5 million	2.0	Applies to the participant that failed to settle	
6 to 25 million	1.5	Applies to the participant that failed to settle	
25 to 75 million	1.0	Applies to the participant that failed to settle	
More than 75 million	0.5	Applies to the participant that failed to settle	
<a href="#">Flat fee chart</a>	Varies	Increases with each occurrence, based on dollar amount of participant net debit	

Fee interest is charged to the participant that failed to settle, in addition to the interest charged for the cost of borrowing to complete settlement. The number of occasions will be determined over a moving three-month period. A participant that exceeds four failure-to-settle occasions in a 3-month period will be subject to further fees and/or other actions at DTC's discretion after consultation between the participant and DTC.

If DTC determines that it had greatly affected a participant's ability to settle (because of a DTC system delay, for example), DTC will waive failure-to-settle fees for that occurrence.

**Example:** Interest is calculated overnight on a 360 day/year basis. Charges equal [fee interest](#) plus a [flat fee](#), based on the amount of net debit in U.S. dollars. For a net debit of \$100 million, fee interest is calculated as follows:

$$\frac{[(\$5,000,000 \times 0.02) + (\$20,000,000 \times 0.015) + (\$50,000,000 \times 0.01) + (\$25,000,000 \times 0.005)]}{360} = 2,847$$

For a first occasion net debit of \$100 million, total fees equal \$2,847 (fee interest) + \$1,000 (flat fee) = \$3,847.

### Flat Fee Chart

Participant Net Debit	FIRST OCCASION	SECOND OCCASION	THIRD OCCASION	FOURTH OCCASION
\$0 – 100,000	\$100	\$200	\$500	\$1,000
\$100,001 – 900,000	\$300	\$600	\$1,500	\$3,000
\$900,001 – 1,700,000	\$600	\$1,200	\$3,000	\$6,000
\$1,700,001 – 2,500,000	\$900	\$1,800	\$4,500	\$9,000

## Rebate Policy

The Corporation may, in its discretion, provide Participants with a rebate of its excess net income, where "excess net income" shall mean income of either the Corporation or related to one business line of the Corporation after application of expenses, capitalization costs, and applicable regulatory requirements.

All rebates shall be approved by the Board of Directors of the Corporation. In determining whether a rebate is appropriate, the Board may consider, among other things, the Corporation's regulatory capital requirements, anticipated expenses, investment needs, anticipated future expenses with respect to improvement or maintenance of DTC's operations, cash balances, financial projections, and appropriate level of shareholders' equity.

In the event the Board determines a rebate is appropriate, it shall determine a rebate period and a rebate payment date. Participants maintaining membership during all or a portion of the applicable rebate period and on the rebate payment date shall be eligible for the rebate.

Rebates shall be applied to all eligible Participants on a pro-rata basis based on such Participants' gross fees paid to the Corporation within the applicable rebate period, excluding pass-through fees and interest earned on cash deposits to the Participants Fund. Rebates shall be applied to eligible Participants' invoices on the rebate payment date as either a reduction in fees owed or, if fees owed are lower than the allocated rebate amount, a payment of such difference. Rebate amounts may be adjusted for miscellaneous charges and discounts.
