THE DEPOSITORY TRUST COMPANY

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

AS OF MARCH 31, 2021 AND DECEMBER 31, 2020 AND FOR THE THREE MONTHS ENDED MARCH 31, 2021 AND 2020

1. BUSINESS AND OWNERSHIP

The Depository Trust Company (DTC or the Company) is a limited purpose trust company formed under the Banking Law of New York State and supervised by the New York State Department of Financial Services (NYSDFS); a State member bank of the Federal Reserve System (FRS), subject to examination by the Federal Reserve Bank of New York (FRBNY) under delegated authority from the Board of Governors (the FRB) of the FRS; and a clearing agency registered with and under the supervision of the U.S. Securities and Exchange Commission (SEC). DTC provides central securities depository, settlement and related services to members of the securities, banking and other financial industries (referred to herein as its Participants).

DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). Other subsidiaries of DTCC include National Securities Clearing Corporation (NSCC), Fixed Income Clearing Corporation (FICC), DTCC ITP LLC, DTCC Deriv/SERV LLC and DTCC Solutions LLC.

DTC is designated as a Systemically Important Financial Market Utility (SIFMU) by the U.S. Financial Stability Oversight Council pursuant to Title VIII of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, which subjects the Company to enhanced standards for risk management, operation and governance, as established by the SEC's Standards for Covered Clearing Agencies (CCAS).

2. BASIS OF PRESENTATION AND USE OF ESTIMATES

Basis of presentation. The accompanying unaudited, interim financial statements are prepared in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP). The interim financial statements exclude some of the disclosures required in audited financial statements and should be read in conjunction with DTC's Audited Financial Statements for the years ended December 31, 2020 and 2019, which are located on the Company's website at <http://www.dtcc.com/legal/financial-statements>. See Note 2 in DTC's Audited Financial Statements for the years ended December 31, 2020 and 2019, for additional information on the Company's Summary of Significant Accounting Policies.

The financial statements reflect all adjustments of a normal recurring nature that are, in the opinion of management, necessary for the fair presentation of the results for the interim period. The results of operations for interim periods are not necessarily indicative of results for the entire year.

Use of estimates. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Management makes estimates regarding, among other things, the collectability of receivables, the outcome of litigation, the realization of deferred taxes, unrecognized tax benefits, impairment of intangible assets, fair value measurements, expense allocations and other matters that affect the reported amounts. Estimates are based on judgment and available information; therefore, actual results could differ materially from those estimates.

Other Participants' Assets and Payable to Participants. The Company receives cash and stock dividends, interest, reorganization and redemption proceeds on securities registered in the name of its nominee, Cede and Co., and interest and redemption proceeds on bearer securities, which it distributes to Participants. Balances representing cash dividends, interest, reorganization, redemptions, and cash collateral received are included in Other Participants' assets, with a corresponding liability recorded in Payable to Participants, on the accompanying Statements of Financial Condition.

Commitments and Contingencies. The Company is involved in legal proceedings and litigation arising in the ordinary course of business. In the opinion of management, the outcome of such proceedings and litigation is not expected to have a material effect on the accompanying Statements of Financial Condition, Income or Cash Flows.

AS OF MARCH 31, 2021 AND DECEMBER 31, 2020 AND FOR THE THREE MONTHS ENDED MARCH 31, 2021 AND 2020

2. BASIS OF PRESENTATION AND USE OF ESTIMATES (CONTINUED)

Revenue recognition. The Company derives its revenue from transaction fees, subscription revenue, and usage fees. Revenue from transaction fees is billed monthly and calculated based on the number of executed transactions and the established fee schedules, less any applicable volume discounts. The volume targets or thresholds for the discounts reset monthly. Subscription revenues are recognized ratably over the performance period of the relevant contract using a time elapsed measure of progress as the customer receives the benefits of the services throughout the term of the contract. Usage fees are recognized when services are provided based on contractual terms.

Details for each revenue stream presented in the Company's Statements of Income follow:

Settlement and asset services. Revenue derived from this revenue stream is in the form of transaction fees and subscription revenue. The Company provides settlement services for equity, corporate and municipal debt trades and money market instruments in the United States of America. Asset Servicing includes a broad range of services for underwriting, custody, corporate actions, dividend, proxy and reorganization services, as well as the electronic registration and transfer of securities processing.

Other services. Revenue derived from this revenue stream may be in the form of subscription revenue and usage fees, which include referential and activity-based announcement, security reference, and liquidity data through the DTCC Data Services product. These offerings are delivered in fixed or configurable formats, sourced from the Company's transaction, reference, position and asset servicing data.

Correction of an error. During the first quarter of 2021, the Company identified an error that resulted in overbilling clients for a specific Settlement and Asset Services product in 2020 and 2019. The amount overbilled for the years ended December 31, 2020 and 2019, amounted to approximately \$5.2 million and \$2.8 million, respectively. The error also resulted in an overstatement of Settlement and asset services revenue by \$1.3 million for the three months ended March 31, 2020. The error was deemed immaterial to the prior period financials and as a result, the Company recorded the correction of the error and accrued for all overbilled amounts in March 2021. The revenues for the three months ended March 31, 2021 are approximately \$8.0 million lower as a result of the correction. The company will refund all overbilled amounts in the second quarter of 2021.

Deferred revenue. Deferred revenue represents the Company's liability to perform services in the future related to payments received in advance of those services. Deferred revenue as of March 31, 2021 and December 31, 2020 was \$4,283,000 and \$3,950,000, respectively, and is included in Other current liabilities and Other non-current liabilities on the accompanying Statements of Financial Condition. Of the \$3,950,000 as of December 31, 2020, \$1,179,000 was recognized as revenue during the three months ended March 31, 2021.

Expense allocations. Substantially all expenses are recorded at DTCC and are allocated to its subsidiaries, including DTC, based upon their estimated use of such goods or services as determined by various allocation factors including level of support provided and utilization of technology resources. Accordingly, the expenses in the accompanying Statements of Income represent allocated costs including Employee compensation and related benefits, Information technology, Professional and other services, Occupancy, Depreciation and amortization and General and administrative.

Reconciliation of Cash and cash equivalents and other limited use cash. When reconciling the beginning and ending total amounts shown in the Statements of Cash Flows, the Company includes all cash on the Statements of Financial Condition, regardless of which line it is included. The Statement of Cash Flows includes Cash and cash equivalents and cash balances that are not available for general corporate purposes due to certain limitations, including - Participants' Fund cash deposits and Cash in Other Participants' assets.

A reconciliation of Cash and cash equivalents, Participants' Fund cash deposits, and Cash in Other Participants' assets, reported within the Statements of Financial Condition that sum to the total of the same such amounts shown on the accompanying Statements of Cash Flows follows (in thousands):

Common stock dividend. On February 10, 2021, the Board of Directors approved a dividend in the amount of \$30 million from DTC to DTCC. As of March 31, 2020, the accrued dividend is included in Accounts payable and accrued expenses on the accompanying Statements of Financial Condition. The dividend was paid in April 2021.

Novel coronavirus. The outbreak of the novel coronavirus ("COVID-19") in many countries continues to adversely impact global commercial activity and has contributed to significant volatility in financial markets. The World Health Organization has declared COVID-19 a "Public Health Emergency of International Concern." The global impact of the outbreak continues to evolve, and as cases of the virus have continued to be identified, many countries have reacted by instituting quarantines and restrictions on travel. Such actions are creating disruption in global supply chains, and adversely impacting a number of industries. The outbreak could have a continued adverse impact on economic and market conditions and trigger a period of global economic slowdown. Nevertheless, COVID-19 could have a material impact on the Company's financial statements. In addition to the factors described above, other factors either in the U.S or internationally that may affect market, economic and geopolitical conditions, and thereby adversely affect the Company's business include, without limitation, economic slowdown, changes in interest rates and/or a lack of availability of credit, changes in law and/or regulation, and uncertainty regarding government and regulatory policy. At this time the Company has not experienced any impairments to the Company's assets or material adverse financial impacts related to COVID-19.
