

Important Notice

Fixed Income Clearing Corporation - MBSD

MBS #:	MBS045-14
Date:	March 19, 2014
To:	Mortgage-Backed Securities Division Members
Category:	Service Update
Subject:	New Web-Based EaSyPool (ESP) Application

FICC is in the process of moving ESP to a web-based application that will be located on the DTCC portal. The new ESP application will have the same look and feel as the existing Real Time Trade Matching (RTTM) application. Firms will no longer be required to have a standalone PC in order to access ESP for submitting their activity into the Electronic Pool Notification (EPN) system. The new web-based application will be accessible on each individual user's desktop.

Firms that utilize ESP and already have an existing access coordinator (AC) setup with DTCC or FICC will be authorized to gain access to the new ESP application. Firms that have an existing AC in place should verify that those users will also be using ESP. If additional AC's are needed, please contact your Relationship Manager (RM) to grant them access.

Any EPN-only firms that do not have an existing AC set up will need to contact their RM to set up user logons and passwords to access the new web-based ESP application.

Time line:

Member testing will begin March 24th, 2014

ESP will be available to members in production June 30th, 2014

Please contact Thomas Choi @ 212 855 7598 or Vance Howard @ 212 855 7605 to schedule testing.

Vance Howard
Director
MBSD Clearing Services

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery. To learn more and to set up your own DTCC RSS alerts, visit http://www.dtcc.com/subscription_form.php.
