

B #:	B9180-18
Date:	August 10, 2018
To:	All Participants
Category:	DTC Risk Management
From:	Settlement Manager/Managing Director/Cashier
Attention:	Changes to DTC calculations affecting your Collateral Monitor
Subject:	B9180-18

This notice relates to Participants that are also Members of National Securities Clearing Corporation (NSCC) that utilize CNS (Continuous Net Settlement), referred to as Common Members.

The purpose of this notice is to inform Common Members that DTC is making a minor processing change to the valuation of certain securities deliveries to CNS that may affect the value of your Collateral Monitor at DTC. DTC anticipates that this change will have a minimal impact, but you should be alerted to monitor your Collateral Monitor to ensure that the flow of transactions intraday does not require action on your part.

This change will modify the collateral value of equity securities that are delivered from your Account to CNS as short covers. The change is to increase the haircut which will reduce the collateral value of equity securities with a price per share equal to or greater than \$5 ("Affected Securities"). In particular, for Affected Securities, that are not received versus payment and are onward delivered to CNS, the Collateral Monitor will be increased by an amount equal to the market value of the securities multiplied by haircuts ranging from 25% to 65% instead of 10% currently. This change will align the collateral valuation of the Affected Securities with the current DTC haircut schedule (please see Appendix below).

As a reminder, to manage intraday transaction blockages due to risk management controls, the tools available to you are: to designate additional securities as collateral, process delivery versus payment transactions that will generate intraday credits to your settlement account, or Fed wire settlement progress payments to your Account at DTC. Clients can monitor their collateral monitor balance via the Risk Management Controls Inquiry link in the Cash and Balances tab in the Settlement Web.

For more information related to CNS processing at DTC, you may wish to review the Settlement Service Guide¹.

This change will become effective and will be reflected in Members' DTC Collateral Monitor beginning on **Friday August 31, 2018**.

Questions regarding this notice should be directed to:

- Your Relationship Manager or
- DTC Risk Hotline 1(212) 855-2260

¹ For more information on Collateralization please reference the Settlement Service Guide <http://www.dtcc.com/~media/Files/Downloads/legal/service-guides/Settlement.pdf>

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery. 1. Securities are assigned a 100% haircut if the issue has matured, the issuer is in bankruptcy or the security is not priced by an approved DTC pricing model or by a third-party vender for a period of 10 business days or more.
2. DTC may reduce its risk by assigning higher haircuts, w here applicable, to equity securities designated as highly volatile, based on their historical price volatility.
