

GOV #:	GOV1052-21
Date:	February 22, 2021
To:	Government Securities Division (“GSD”) Members
Category:	Service Update
Subject:	Real Time Trade Matching (RTTM®) Web Application Modernization – Network Connectivity Final Extension

On January 21, 2021, the Government Securities Division (“GSD”) and the Mortgage-Backed Securities Division (“MBS”) of the Fixed Income Clearing Corporation (“FICC”) issued Important Notice [GOV1036-21](#) and [MBS951-21](#) respectively, as a reminder for members to test connectivity to the new Uniform Resource Locator (“URL”) established for the new RTTM Web application.

FICC appreciates members engagement in testing the new networking connectivity to facilitate the completion of this phase of the RTTM Web Application Modernization initiative. FICC is aware that today, **February 22, 2021**, is the established deadline to complete this network connectivity test. FICC also understands that there are members whose connectivity resolution will occur beyond this deadline.

As such, FICC will extend the current testing to **March 26, 2021**. This will be the **final** extension allowed for members to complete the network connectivity testing. Members are expected to complete testing with the FICC Integration team within this extended testing period.

Below is a reminder of the steps members will need to take to complete this task.

Each FICC member will need to:

1. Access the new URL’s provided in the document available in DTCC Learning
2. Provide an email to the FICC Integration team stating they have successfully accessed the new URLs and the associated account(s) they represent. Completed testing responses are to be sent to FICCIntegration@dtcc.com

If you have any questions regarding this Important Notice, please contact your Relationship Manager
