

MBS #:	MBS1086-22
Date:	04/27/2022
To:	Mortgage-Backed Securities Division Participants
Category:	Service Update
Subject:	EPN EaSyPool Update

The Mortgage-Backed Securities Division (“MBS”) of Fixed Income Clearing Corporation’s (“FICC”) Electronic Pool Notification (EPN) EaSyPool (ESP) application will be migrating to RTTM Web where all other MBS web applications currently reside. In the final efforts to modernize all MBS applications, ESP will now be accessible through the RTTM web located in the DTCC Portal. In 2020-2021 FICC modernized all web applications by moving them to the Portal where all other DTCC and FICC applications reside providing a more efficient way for clients to access all DTCC web applications. The final step of this modernization effort for MBS is moving EaSyPool (ESP) to the Portal under RTTM.

User Management requirements

- ✓ FICC RTTM Web Users Management will be through DTCC CRS (Customer Registration System)
- ✓ Super Access coordinators (SACs) will need to register in DTCC CRS system by working with DTCC client integration team.
- ✓ Super Access Coordinators (SAC’s) will need to provision ESP Users in RTTM with the access listed below based on their role.

FICC MBS RTTM Web
Roles
MBS ESP Read-only
MBS ESP Update

Firms that currently do not have access to RTTM will need to work with their internal networking team(s) to gain access based on your network; SMART, BT RADIANTZ, SFTI or AT&T ANIRA. If you are unable to access the new URLs, please send an email to FICC Integration (FICCIntegration@dtcc.com) along with details of the issue.

Timeline

EaSyPool (ESP) will be available to users in the RTTM Production environment starting on May 2nd. The existing ESP application will run in parallel until June 24th. On Monday June 24th ESP will no longer be available through the legacy system.

If there are any questions, please contact FICCIntegration@dtcc.com.

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery.
