Subject:	ETF PCF CYCLE EXPANSION – PRODUCTION DATE

This is a follow-up to Important Notice a9137 (published 5/16/22) and final notice of the upcoming change that will impact the frequency and timing of the ETF Portfolio Composition File (PCF) primary cycle. Currently, the NSCC cutoff for Primary Cycle PCF submission is 8PM ET. However, with the increase in PCF volume with multiple basket types, the request for extensions by ETF Agents has become a regular event resulting in later and later PCF distributions. In response to this reoccurring issue, ETF participants in collaboration with NSCC have developed a solution that would accommodate the acceptance of late submissions without delaying already submitted (on-time) PCF transmissions.

To meet this industry need, NSCC will introduce a new secondary cycle that will follow the existing primary cycle (PCF Production File 11301). The existing supplemental cycle will then follow the secondary cycle. The primary cycle will have a hard submission cutoff of 9pm et, which will allow PCF output file distribution at approximately 9:30 pm (Production Autoroute file 02261256). For late submissions, a secondary cycle will be added with a hard submission cutoff of 10:30 pm et, which will allow PCF output distribution at approximately 11:00 pm et. Any PCF submitted after 10:30 pm will be held until 12:30 am and distributed in the near real time supplemental file for those firms subscribed or distributed at 12:30 pm at the end of the supplemental cycle for firms not subscribed to the near real-time file. Once this enhancement is implemented, NSCC will no longer grant PCF extension requests!

All applicable documentation will be updated with new PCF cycle changes. See [DTCC Learning Center](#) for all ETF documents.

Scheduled Launch:

Production Date - September 23, 2022 – This is the first day in which the new cycle will run in production.

PSE was already implemented on May 27, 2022

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery. To learn more and to set up your own DTCC RSS alerts, visit http://www.dtcc.com/subscription_form.php.

Enhancement:

NSCC has reviewed this enhancement at the recent ETF Industry Working Group and has requested that the ETF Agents submit PCF input files in the PSE region in both primary cycles to provide test data. Receivers of the PCF output file made adjustments to handle multiple cycles with the multiple basket PCF enhancement in 2020, yet firms can arrange for updates by contacting NSCCIntegration@DTCC.com

ETF Enhanced Consolidated Portfolio Composition File (PCF)	SYSID	Primary Cycle Numbers	Input (ET)	Output by: (estimated ET)
Production	02261256	01 - Primary 03- Secondary	2:00 pm - 9:00 pm 9:00 pm - 10:30 pm	9:30 pm 11:00 pm
<i>PSE (Test)</i>	<i>02981256</i>	<i>01-Primary 03 – Secondary</i>	<i>2:30 pm – 5:30 pm 5:30 pm - 6:30 pm</i> <i>*Negotiated Deadline is 5pm in PSE</i>	<i>6:00 pm 7:00 pm</i>

Note the Cycle Changes above.
Primary Cycle will continue to be 01
Supplemental Cycle will continue to be 02
New secondary cycle will be 03
Negotiated Cycles will begin with cycle 04.

For both primary and secondary cycles, P will remain as the beginning value of the file identifier field on the 01-Header Record for the 1256 file. S will remain the value on the supplemental 1256 and near-real-time 2335.
