<b>Category:</b>	Underwriting
<b>From:</b>	Underwriting Product Management
<b>Attention:</b>	Underwriting Central Retail CD Submitters
<b>Subject:</b>	Underwriting Central – Framework / Component Upgrades in Production

**The UWC user interface (UWC UI) will be updated in Production the evening (EST) of 2/3/23; the updates will be available to clients on 2/4/23.** While the look and feel of the application will remain the same, UWC UI components and some field level functionality will be upgraded to align the application with current DTCC UI standards.

**The upgrade should only impact users who utilize firm specific automation to submit eCD issues for eligibility.** The updates will be mostly transparent to users who enter information directly via the UWC UI or manually upload issues using the eCD spreadsheet template. A comprehensive list of updated fields can be provided to clients on demand. Please reach out to [UWCPM@dtcc.com](mailto:UWCPM@dtcc.com).

Important Notice #16432-22 was issued on 12/7/23 informing clients of the upgrade and advising users to test in the UAT region.

### **Resources**

Please visit [Underwriting Central](#) on DTCC.com for more information about the UWC application or visit the Underwriting Central page on the [DTCC Learning Center](#) for UWC learning artifacts.

Questions regarding this Important Notice should be directed to [UWCPM@dtcc.com](mailto:UWCPM@dtcc.com).

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery.
