

Important Notice
National Securities Clearing Corporation

B #:	CMU98-24
Date:	02/26/2024
To:	ALL CMU RTTM WEB USERS
Category:	CMU
From:	PRODUCT MANAGEMENT
Attention:	DIRECTOR OF OPERATIONS
Subject:	CMU RTTM WEB MODERNIZATION – PORTAL ACCESS VIA NEW URL

This notice is a follow up to Important Notice [A9378](#) (dated January 12, 2024). In that notice, it was announced that there will be some upcoming technology upgrades that may impact various DTCC Web Portal application URLs. The CMU RTTM® Web application is impacted and requires Member firms to perform changes.

These changes are tentatively scheduled to go into effect on August 1st, 2024.

Client Impact

There will be no change to the existing functionality of the CMU RTTM Web application. Member firms should be able to use and navigate the Web application as they do today. However, due to the creation of new URLs, firms will be required to:

1. Make **networking changes**, in both the PSE and Production environments to ensure that you maintain access to the application after deployment.
2. Test and confirm that you have completed the required changes successfully.

Clients that fail to address the above requirements will **not** be able to access the CMU RTTM Web application following the deployment date.

Client Engagement

To assist impacted firms with this effort, the NSCC Relationship Management (RM) team will begin a client outreach to provide guidance and discuss the effort in more detail. Member firms should anticipate working closely with their respective RMs and the NSCC Client Integration team until the required changes are completed. The client outreach is scheduled to begin the week of March 11th, 2024.

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery. To learn more and to set up your own DTCC RSS alerts, visit http://www.dtcc.com/subscription_form.php.

Additionally, a comprehensive technical guide has been created and will be made available. Firms can access the *Network Connectivity Guide For CMU RTTM modernization* in the [CMU Technical Resources](#) section after logging in to the Learning Center. Please note that you will need to have access to the DTCC Learning Center to get to the guide. You can [register](#) with the Learning Center.

Should you have any questions regarding this notice, reach out to your Relationship Manager.
