Subject:	CMU RTTM WEB MODERNIZATION UPDATE – PORTAL ACCESS VIA NEW URL

This notice is a follow up to Important Notice’s [CMU130-24](#) dated July 2nd, 2024 and [CMU136-24](#) dated July 29th, 2024. In those notices, it was announced that NSCC is working on upcoming technology upgrades that may impact various DTCC Web Portal application URLs. The CMU RTTM[®] Web application is impacted and requires Member firms to perform changes.

We were tentatively scheduled to go into production with these changes on August 16th. However, we are **extending** the timeline to allow firms additional time to complete the required changes. The new production release date is now September 20th.

We are not anticipating issuing another extension, so it is **imperative** that firms complete and test their changes to avoid running into access issues once the changes are released.
