

Important Notice
National Securities Clearing Corporation

| | |
|-------------------|---------------------------------------------|
| A #: | 9480 |
| P&S: | 9053 |
| Date: | August 20, 2024 |
| To: | All DTCC SMART Clients |
| Category: | Service Update |
| From: | SMART Service Product Management Office |
| Attention: | Networking Staff |
| Subject: | Action Required: T1 and T3 Circuit Upgrades |

As part of DTCC's SMART service, many clients currently utilize T1 and/or T3 circuits. DTCC has been informed that this technology is approaching end of life. Circuit service providers are requiring all clients to migrate from T1 and T3 circuits to updated alternative technologies. Failure to upgrade will result in service outages. Additionally, to expedite the upgrades, circuit providers have implemented significant price increases and begun issuing mandatory disconnect notices.

All clients must work with DTCC to initiate T1 and/or T3 circuit upgrades as early as possible, no later than October 1, 2024.

To initiate the upgrade, please complete the TDM Migration form located on our [Learning Center](#) and return it to sccp@dtcc.com with subject: TDM Service Upgrade Request.

DTCC may contact any client in scope for a mandatory disconnection once notification has been received from the DTCC service provider. Within two weeks of being contacted, clients must respond to or schedule a meeting with DTCC's Client Connectivity Services team to discuss next steps or alternative solutions.

Failure to take timely action will result in disruptions and loss of connectivity to DTCC applications.

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery. To learn more and to set up your own DTCC RSS alerts, visit http://www.dtcc.com/subscription_form.php.
