Please be advised that, as set forth in Section VII of the Trade Information Warehouse Post-Trade Services Appendix to the DTCC Deriv/SERV Operating Procedures (the “Operating Procedures”), it has been requested that the Trade Information Warehouse (“TIW”) create a successor event (as defined in the Operating Procedures) for APACHE CORPORATION (the “Re-org Event”).

Following are the pertinent details of the Successor Event on ISDA 2014 Derivatives Definitions.

As the rename Event is set for Auto-Auto adherence, the TIW will automatically adhere all transactions on the relevant reference entity name, regardless of the reference obligation used on that transaction.

If firms do not want the relevant reference entity on a transaction to be renamed in accordance with the Re-org Event, they should un-adhere that transaction. This un-adherence should be completed prior to February 26th, 2025, at 4:30 pm (Eastern Time), the Event Processing Start Date for the Re-org Event. The TIW will only process the Re-org Event for a Warehouse Record (as defined in the Operating Procedures) if neither party to the relevant transaction has un-adhered the transaction. Additional information can be found in the Product Training and Support section of the TIW in a Self-Study Guide: Practical Guide – Re-org Events Processing.
