

Important Notice
The Depository Trust & Clearing Corporation

Z #:	0281
Date:	April 15, 2025
To:	Client Administrators (Super Access Coordinators and Access Coordinators)
Category:	Service Updates
From:	Product Management
Attention:	All DTC, NSCC Client Administrators
Subject:	Participant Terminal Services/TN3270 Access Discontinuation

As part of our ongoing efforts to modernize our technologies and provide the best client experience, DTCC will sunset access to its legacy Participant Terminal Services (PTS) also known as TN3270 Terminal, in Q3 of 2025. Services available in PTS can be accessed through DTCC Mainframe Portal or [MyDTCC](#), as the point of entries to DTCC services.

This transition will be executed in phases to guarantee a smooth and seamless experience for clients. Most PTS functions will be retired in the initial phase, and a detailed list will be provided in upcoming client communications.

Client Administrators (Super Access Coordinators/Access Coordinators) should make certain that all user identities accessing PTS are defined in the Customer Registration System (CRS) and **disclose IDs being used as RPA (Bots)** with a user profile distinction of Robot Persona by end of Q2 2025. Phase 1 focuses on sunsetting PTS services accessed by human identities. To avoid any disruptions, it's important to disclose the use of an RPA/Robotic Process Automation (Bots) during this phase.

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery. To learn more and to set up your own DTCC RSS alerts, visit http://www.dtcc.com/subscription_form.php.

We are committed to making this transition as seamless as possible. If you have any questions or concerns related to the discontinuation of PTS access, please [contact us](#).
