Category:	NSCC Service Update
From:	NSCC Equity Clearing & Settlement Product Management
Attention:	All CNS Product Users
Subject:	CNS® Modernization: Extension of CNS Print Image Output Availability and Adjustment to Member Testing Timeline

PRINT IMAGE OUTPUT PRODUCTION AVAILABILITY EXTENSION

In response to Member input, **DTCC is temporarily extending the availability of CNS® print image outputs beyond the CNS Modernization go-live date of November 16, 2026.**

The CNS print image outputs will continue to be available in Production while comparable functionality in CSV format is implemented in Securities Data Experiences accessible through the MyDTCC portal. While the final decommission date for existing CNS print image outputs has not yet been established, DTCC expects to align with the planned decommissioning of existing CNS MRO outputs in 2028.

PRINT IMAGE OUTPUT PSE AVAILABILITY

Due to the development effort necessary to extend the print image output availability in production, the existing print image outputs will not be available in PSE beginning July 27, 2026, until a later date to be communicated in a future Important Notice.

CLIENT TESTING PERIOD CHANGE

As previously communicated in Important Notices A9742 and A9751, CNS Modernization client testing was expected to begin on July 13, 2026. The night cycle CSV reports became available on July 13, 2026. DTCC has deferred testing of the day cycle CSV reports and CNS MRO files until July 27, 2026.

Note: CSV reports are only generated when data exists in PSE specific to client activity.

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery. To learn more and to set up your own DTCC RSS alerts, visit http://www.dtcc.com/subscription_form.php.

CLIENT TESTING ATTESTATION

During the testing period between July 27, 2026, and October 9, 2026, members are encouraged to confirm data continuity of the existing MROs and the MT 570 Intraday Position Change message, if applicable. Members can attest through email to DTCCTransformation@dtcc.com or complete the [CNS attestation web form](#), which is available on the DTCC Transformation Site.

Members are not required to attest to print image and CSV reports at this time. However, attestation for these outputs is expected to be required at a later date.

For additional information, please visit <https://www.dtcc.com/dtcctransformation> or contact DTCCTransformation@dtcc.com or your DTCC Relationship Manager.
