To:	All NSCC Members
Category:	NSCC Service Update
From:	NSCC Equity Clearing & Settlement Product Management
Attention:	All CNS Product Users
Subject:	CNS® Modernization Output Testing Timeline Change

CLIENT TESTING PERIOD CHANGE

As previously communicated in Important Notice A9795, CNS Modernization client testing was expected to begin on July 27, 2026. DTCC is deferring the testing start date of the modernized CNS to August 24, 2026.

This revised timeline reflects additional operational activities required to transition the PSE environment for CNS Modernization, support critical testing, and accommodate the previously announced extension of CNS Print Image output availability. Print Image reports will be made available in the PSE environment on a future date to be communicated. As a reminder, DTCC is extending the availability of CNS Print Image outputs beyond the CNS Modernization go-live date of November 14, 2026.

For additional information, please visit <https://www.dtcc.com/dtcctransformation> or contact DTCCTransformation@dtcc.com or your DTCC Relationship Manager.

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery. To learn more and to set up your own DTCC RSS alerts, visit http://www.dtcc.com/subscription_form.php.
