ADVANCING FINANCIAL MARKETS. TOGETHER.™

DTCC
Given the pressures and challenges of today’s complex market and business environment, clients are looking for a partner that is singularly focused on their best interests. User owned and governed, DTCC leverages its insights and expertise to provide solutions that serve the needs of companies across the globe, as we are fully committed to creating a more secure, resilient and efficient post-trade infrastructure.

For over 45 years, we have played a pivotal role in protecting and supporting the growth of the global financial markets, tackling some of the industry’s biggest operational challenges while processing millions of securities transactions every day. With a keen focus on risk management, execution and reliability, DTCC standardizes, centralizes and automates back and middle office processes, serving as the central clearing house for the U.S. capital markets and operating the first and only global trade repository for the derivatives market.

As changes in market structure and new regulations transform the industry, DTCC is proactively engaging with clients, regulators and industry partners to develop innovative solutions that drive positive change. Through collaboration, we are helping lead the digitization of post-trade processing, exploring how new technologies like DLT, cloud computing, robotics process automation and applied machine learning can help reduce risks and costs and increase efficiencies.

TOGETHER, WE ARE ADVANCING THE GLOBAL CAPITAL MARKETS.
WE STAND AT THE CENTER OF THE FINANCIAL MARKETS, PROVIDING A WEALTH OF INNOVATIVE SOLUTIONS ACROSS THE POST-TRADE ECOSYSTEM.

Through our subsidiaries, DTCC delivers an unmatched suite of services that provide maximum client value, deep market insights and superior risk management across market segments, globally.

We serve the needs of clients across asset classes, from initial onboarding through trading, clearance, settlement, asset servicing, data management and trade reporting, bringing increased security and soundness to the financial markets.

WE ARE LEADING TRANSFORMATIVE CHANGE BY:

MITIGATING RISK
